Sources Say Cairo Favors New U.S. Plan

CAIRO, Oct. 21 (UPI).—Egypt has agreed to an American suggestion that a top State Department official be designated as a go-between in negotiations for an Egyptian-Israeli interim agreement on re-opening the Suez Canal, authoritative diplomatic sources said today.

The man proposed for the job is Joseph J. Sisco, Assistant Secretary of State for Near Eastern Affairs, and one of the architects of U.S. Middle East policy in the administration of President Nixon, the sources said.

They said the plan was for Mr. Sisco to have separate talks with the Egyptians and Israelis on the basis of a six-point plan for an interim canal accord outlined by Secretary of State William P. Rogers in his speech to the UN General Assembly Oct. 4.

In that speech, Mr. Rogers said a canal pact should be a first step toward an overall settlement and should involve a partial Israeli withdrawal from the waterway taking account of "important strategic considerations." Mr. Rogers said the pact should also include a cease-fire extension of a reasonable and realistic duration, and effective international mechanism separating the two sides in Sinai, and a compromise on the types of Egyptian personnel to cross the canal in the wake of an Israeli pullback.

The sources said Egypt now was waiting for the United States to move in accordance with the go-between plan.

They said Egypt agreed to Mr. Sisco's designation during talks between Mr. Rogers and Egyptian Foreign Minister Mahmoud Riad, in New York earlier this month.

Beyond the procedural agreement on Mr. Sisco's designation, the sources said there has been no tangible progress so far on questions of substance.

Qualified Israeli Welcome

TEL AVIV, Oct. 21 (UPI).—Israel would welcome the mission of an American go-between with Egypt, so long as the diplomat does not make specific peace proposals himself, an Israeli diplomatic source said today.

U. S. Won't Comment

WASHINGTON, Oct. 21 (UPI).—The State Department today would neither confirm nor deny a Cairo report that Egypt had agreed to the U. S. suggestion for a go-between.

Knows Hanoi Wants Peace

Ceausescu Tells U.S. Governors War Can Be Settled in Week

BUCHAREST, Oct. 21 (AP).—President Nicolae Ceausescu told a group of visiting U.S. governors today he was certain that circumstances now exist which would permit the Vietnam war to be resolved in "only a week."

"I am convinced, I am sure that in only a week certain very good conclusions and settlements can be achieved," Mr. Ceausescu told the governors during an hour and ten minute discussion on world problems.

"I have found out that the leadership of North Vietnam does desire that an end should be brought to the war and a certain agreement can also be reached," he said.

He did not add any details to his statement, but pointed out that he visited North Vietnam during the summer and maintained good relations with Hanoi. He said the latest Communist proposals at the Paris peace talks—rejected by the United States—were directed toward bringing a quick end to the war.

Mr. Ceausescu received the governors on the fourth day of their five-day visit to Romania.

Mr. Ceausescu appeared to have some reservations about President Nixon's visit to the Soviet Union next May. Asked by Gov. Marvin Mandel, D., Md., what he thought about the trip, Mr. Ceausescu replied:

"We have to see which problems and questions will be broached in order to say what consequences will result. We consider the visit as useful. Of course, all the world and Romania, too, are looking forward that the visit contributes to the general détente and cooperation but on the basis of observing all the interests of all the states."

The reference to the interests of all states appeared to express some concern that decisions relating to the status quo in Eastern Europe could come out of a Nixon meeting with Soviet leaders, bypassing the nations concerned.

Mr. Ceausescu gave considerable emphasis to Romania's interest in obtaining most-favored-nation trade status with the United States. This would make it easier for Romanian products to penetrate the American market. The governors had asked Mr. Ceausescu what could be done to improve relations.

The other governors calling on Mr. Ceausescu were Warren E. Hearnes, D., Mo.; Dale Bumpers, D., Ark.; William G. Milliken, R., Mich.; John A. Love, R., Colo.; David Hall, D., Okla., and Stanley K. Hathaway, R., Wyo.

Peking Paper Prints Photos Of Kissinger

PEKING, Oct. 21 (Reuters).—Photographs of President Nixon's special envoy, Henry Kissinger, and his aides appeared in the People's Daily here tonight—an event to which diplomats here attributed considerable significance.

Mr. Kissinger, here to arrange details of the President's visit to China, was shown with Chinese Premier Chou En-lai.

Thirteen other members of the U.S. mission here were also shown, as well as Chinese officials with whom they are conferring.

This is the first time the regime-controled press here has published a picture of an American official in China.

The New China News Agency announced today that Mr. Kissinger and Mr. Chou had conferred in Peking yesterday. It gave no details as to what had been discussed.

Diplomats pointed out that publication in the People's Daily meant that the photographs would also appear in newspapers throughout China.

The decision to let the population see Chinese leaders together with senior officials of the United States, which is savagely attacked in slogans and posters all over the country, indicated developments in Sino-American relations, the diplomats said.

One diplomat suggested that the Chinese had received assurances from the United States on the subject of Taiwan or other international issues.

There has, however, been no indication at official level of any change in previously stated attitudes.

U.K. Deserts U.S. in Vote On 2 Chinas

UNITED NATIONS, N.Y., Oct. 22 (AP).—Britain abandoned today its 20 years' support of U.S. efforts to prevent the expulsion of Nationalist China from the UN.

Sir Colin Crowe, the British delegate, told the General Assembly his delegation would vote against the so-called "important question" resolution—the U.S. hope of preventing such expulsion.

The resolution, sponsored by the United States and 21 other countries, designates any proposal to deprive the Republic of China of UN representation an important question, to be decided only by a two-thirds vote.

It aims to nullify the resolution of Albania and 21 other countries, that would seat the People's Republic of China and expel "the representatives of Chiang Kai-shek."

Sir Colin said Britain would vote for the "Albanian" resolution and against the substitute "dual representation" resolution of the United States and 18 other countries, aimed to keep Taiwan in the Assembly and to put Communist China on the Security Council and in the Assembly.

He said Britain was against the "important question" resolution because recent statements from Peking had made it clear that the resolution "would in practice involve further delay" in seating that government.

The Chinese Communists have said they will "have nothing to do" with the UN while the Nationalists remain.

In falling away from the two-thirds-rule resolution, after supporting it for years, Britain was following the line Canada took earlier today in the debate.

Among other speakers, Haiti, the Philippines, Australia, the Congo (Kinshasa) and the Dominican Republic all supported the U.S. resolution, and Uganda, Egypt, Norway, Czechoslovakia, Equatorial Guinea, Burma and Yemen favored the other side.

An American spokesman continued to show optimism. He told reporters, "I think our position seems good as it rises to a climax."

Powell, Rehnquist

Nixon Surprises U.S. In 2 Court Choices

By Carroll Kilpatrick

WASHINGTON, Oct. 21 (WP).—President Nixon tonight surprised official Washington and the legal profession by announcing to the nation on television that he will nominate Lewis F. Powell jr., of Richmond, Va., and Assistant Attorney General William H. Rehnquist as associate justices of the Supreme Court.

Their names had not figured prominently in speculation nor were they submitted to the American Bar Association's Judiciary Committee for clearance.

Mr. Powell, 64, is a widely known attorney and former ABA president who also headed the American College of Trial Lawyers. He has never held public office except as chairman of the Richmond Board of Education. He is a Democrat.

Mr. Rehnquist, 47, is a native of Milwaukee, who was graduated from Stanford University and Harvard and practiced law in Phoenix, Ariz., before being named to the Justice Department in 1969. He is a Republican.

He heads the legal counsel office in the Justice Department.

Mr. Nixon said "they will be names to be remembered."

The President recalled that he had appointed Mr. Rehnquist an assistant attorney general, "serving as the chief interpreter of the Constitution for the whole government."

Finest Legal Minds

"I would rate William Rehnquist as having one of the finest legal minds in the whole country today," Mr. Nixon said. "He rates at the very top as a constitutional lawyer and a legal scholar."

If confirmed by the Senate, the two men will succeed Justices Hugo L. Black and John M. Harlan and bring the court up to full strength.

The nominations of the two men, both highly regarded in their profession as able lawyers, were not immediately expected to encounter bitter opposition as did the President's nomination of Judges Clement F. Haynsworth, of South Carolina, and G. Harrold Carswell, of Florida. Both were rejected.

The President's choice of Mr. Powell and Mr. Rehnquist, whom he described as conservatives in the law, came after bitter criticism of rumored choices and opposition from the ABA to two names prominently mentioned—Mildred L. Lillie, of Los Angeles, and Herschel H. Friday, of Little Rock, Ark.

Obviously looking forward to next year's election and wishing to avoid another bloody battle over the court, the President turned to two lawyers who share his legal outlook and who are well known in their profession.

Many observers, mindful of the President's desire to maintain the stronger political position he has gained as a result of recent foreign policy announcements and his moves in the economic field, doubted that he would sacrifice those gains by picking highly controversial figures for the Supreme Court.

Immediately following the President's 14-minute speech, Attorney General John N. Mitchell told the

Kennedy Denounced By Britain and Ulster

LONDON, Oct. 21 (Reuters).—Britain's Deputy Defense Minister Lord Balniel and Northern Ireland's Prime Minister Brian Faulkner today denounced Sen. Edward Kennedy for saying yesterday that British troops should withdraw from Ulster and that all of Ireland should be united.

Mr. Faulkner, speaking in the Northern Ireland Parliament, said, "One would think that his speech had been written from an IRA [Irish Republican Army] brief."

He said Sen. Kennedy had revealed his ignorance of Ireland by giving a figure for the Protestant population of the Irish Republic—300,000—that was more than twice as high as the official figure given by Dublin.

"But what makes Sen. Kennedy's speech even more reprehensible," Mr. Faulkner added, "is the fact that he is obviously willing to play American politics with Ulster people's lives."

In the British House of Commons, members from both major parties criticized the senator's speech. They were told by Lord Balniel:

"I echo the sentiments you have expressed in resenting very much indeed the sentiments expressed by Sen. Kennedy."

About 60 Conservative members later signed a motion reading, "This House deeply resents the quite unwarranted incursion of Sen. Kennedy into the domestic affairs of the United Kingdom but is confident that it does not reflect the views of responsible American leaders."

There are 326 members of the Conservative and allied parties in the 630-member House of Commons.

In newspaper comment, the Daily Telegraph said that the speech had been irresponsible interference in the affairs of another country.

"It will no doubt make him a popular figure among the gunmen and saboteurs operating in Ulster and among some of the Irish Catholic voters of Massachusetts," the paper said.

"If there is one thing which would vastly increase the violence and bloodshed in Northern Ireland it would be the withdrawal of the British troops for which he asks," it added.

The London Evening Standard said: "His action is wholly absurd... [his opinions] are not only wrong, they are dangerously and irresponsibly misleading."

Louis Heren, deputy editor and for many years Washington correspondent of The Times, said: "Certainly the senator's speech was in no way constructive. He ignored the facts of Northern Irish life, and the further bloodshed which would inevitably follow a precipitate British withdrawal."

Daily Mail columnist Ferdinand Mount said: "Senator Kennedy wants to be President of the United States and he wants their [Irish-Americans'] votes. This is the truth behind his irresponsible and ill-informed demand."

● Gunmen in Ulster burn medical supplies for children. - Page 2.

Senator Repeats Call

QUINCY, Mass., Oct. 21 (Reuters).—Sen. Kennedy, comparing the turmoil in Northern Ireland to the U.S. involvement in Vietnam, called again today for the withdrawal of British troops from the province.

"Northern Ireland is the only place in the empire where British troops are fighting," the Massachusetts Democrat said. "Nothing can be gained by building up the presence there. There just isn't any military solution. A local constabulary force can handle the situation just as well."

Majority May Be 120

Commons Starts EEC Debate; Approval Expected Next Week

By Anthony Lewis

LONDON, Oct. 21 (NYT).—The long struggle to bring Britain into the Common Market today entered what should be its last phase—on the floor of the House of Commons.

The House opened its long-awaited debate on the terms of entry negotiated by the Conservative government. A week from tonight, the doorkeeper will shout "Clear the lobbies," and the members will file out to vote.

Every sign is that the House will approve entry by a substantial majority. The exact figures are difficult to predict because no one knows how many Labor pro-marketeers will defy their party orders and vote with the government. But the majority could reach 120.

With the historical setting in mind, and all the strong emotions pro and con, the debate could be expected to be a grand affair. It will take up six full days, more than any for decades.

Tame and Tedious

But it began tamely today, even tediously in the view of many members and observers. There was not much ring of history. It was as if, after 10 years of public argument, there was nothing fresh to say on either side.

Sir Alec Douglas-Home, the foreign secretary, led off for the government with a warning about the consequences to Britain should it say no to Europe now.

"If we were to reject the opportunity and the invitation," he said, "we would have to pause first and ask ourselves how our reputation as a nation for reliable dealing would be looked upon both in Europe and in the rest of the world."

There were noises and shouts of "Come off it" from the Labor back benches as Sir Alec taunted Harold Wilson, leader of the opposition, and other Labor spokesmen for their inconsistency on the market issue.

He quoted an article written last May by Denis Healey, Labor's shadow foreign secretary, that said Britain could be "hammered into the ground" if it remained outside all the major trading blocs.

"I trust that when the last speech in this great debate is over," Sir Alec concluded, "the House will give the clearest signal that we should embark on this new adventure in the long story of our nation."

Mr. Healey was up next, to lead off for the Labor opposition. He said the negotiated terms asked a "scandalously unfair" financial contribution from Britain. He accused the government of having "knuckled under" to the French.

Mr. Healey said Britain's economy, with high unemploy-

Chilean poet and Ambassador to France Pablo Neruda answering reporters' questions yesterday in Paris. French writer Louis Aragon is at right.

Neruda, Chilean Poet, Wins Nobel Prize

By John L. Hess

STOCKHOLM, Oct. 21 (NYT).—Pablo Neruda, the Chilean poet, diplomat and Communist leader, is the winner of the 1971 Nobel Prize for Literature.

The Swedish Academy announced today that it was conferring the award with the citation: "for a poetry that with the action of an elemental force brings alive a continent's destiny and dreams."

The 67-year-old poet, the son of a railroad engineer, was named Chile's ambassador to Paris by the Marxist government of President Salvador Allende Gossens last spring. King Gustaf VI Adolf is to present him with his citation, a gold medal and a check worth $90,000 at a ceremony here on Dec. 10.

Mr. Neruda, whose original name was Neftali Ricardo Reyes Basulto, first published poems at the age of 17 and had won wide esteem by his early 20s. In an old tradition of royal subsidy to artists, he was given consular posts. He has created a huge body of work and it is still growing.

Except for a brief surrealistic period around 1930, his poetry is clear and lyrical, infused with love—and politics. The Spanish Civil War and his friendship with Federico Garcia Lorca, the Spanish dramatist-poet, sealed his affiliation to the left. He was elected a Communist senator in 1945 and was forced into hiding in exile from 1947 to 1952.

Mr. Neruda's hymns of praise to the Soviet Union and his acceptance of a Stalin Prize are thought to have spoiled his very strong chance to have won the Nobel award more than a decade ago. His work is frequently published in Swedish translation, and he has been a leading candidate ever since.

According to literary circles

Noncom at Weapons Base d in U.S. in Security Case

By George C. Wilson

INGTON, Oct. 21 (WP).— orce sergeant in a superposition has been chargpassing American secrets to unauthorized it was announced to-

ighly classified material ined for a foreign power, g to informed sources. Air Force did not speh one.

ccused sergeant—Walter ins, 36, of Palo Verde, ld a job at Tyndall Air se, Fla., which gave him ot only to the latest U.S. es of detecting, tracking ming enemy aircraft but telligence on Communist ics in this field as well.

Perkins was the noncomed officer in charge of ice at Tyndall's Air Weapons Center. Knowle sources termed the suseaks as "serious."

Air Force in its terse anment today did not mention the Soviet Union or any other nation as the intended recipient for the secret information possessed by M. Sgt. Perkins. It said only that he "had access to classified material relating to the national defense with intent to pass this material to persons not entitled to receive it."

Intent to pass on secret information was one of three charges the Air Force made against Sgt. Perkins yesterday following his arrest on Monday. The two other charges were having "unauthorized classified documents in his possession" and "executing false official statements about the destruction of certain classified documents."

Pending the outcome of the formal investigation now under way, Sgt. Perkins is being held at the stockade at Tyndall, a base on the Gulf coast near Panama City, Fla.

The Air Defense Weapons Center at Tyndall includes a research center for aircraft weaponry.

Weather Satellite Crashes After Launch

VANDENBERG AIR FORCE BASE, Calif., Oct. 21 (UPI).—A weather satellite which cost the United States $10 million was launched here today but failed to go into orbit and apparently plunged back to earth.

The third in a series of improved Tiros satellites achieved preliminary orbit, but its small control jets failed to maintain stability while coasting in preparation to restart its upper stage engine.

When the engine refired, it apparently drove the satellite back into the earth's atmosphere, officials of the National Aeronautics and Space Administration said. The satellite probably crashed near Devon Island, northeast of Alaska, they said.

Pablo Neruda, Chilean Poet, Gets Nobel Literature Prize

(Continued from Page 1)

here, the academy's vote last Thursday went to Mr. Neruda by a narrow majority, the runner-up being the Australian author Patrick White.

But this was Mr. Neruda's year. Poor reviews for Mr. White's latest novel were thought to be a factor. But Bo Stromstedt, cultural editor of the newspaper Expressen, suggested ironically that Mr. Neruda's appointment to the Paris embassy might have been decisive.

In an interview, he pointed out that three laureates in the last decade had been diplomats: Saint John Perse of France, Georges Seferis of Greece and Miguel Angel Asturias of Guatemala. "I call it a Nobel old age pension for diplomats," he said.

"I think Pablo Neruda is a great poet and a greater artist than Patrick White," Mr. Stromstedt continued, "but, like choices that come too late, it's a bit dull. I'm for choosing younger persons who are in the midst of their work."

The editor's complaint was as old as the prize itself. The award was set up in the will of Alfred Nobel for the best work "of an ideal tendency" in a given year. The first winners, in 1901 and 1902, were the aged Sully Prudhomme of France and Theodor Mommsen of Germany, for work done nearly half a century before. Writers of the epoch raised a storm of protest, arguing that Leo Tolstoy was the obvious choice. He never won a Nobel prize.

An Honor for Chile

PARIS, Oct. 21 (UPI).—Mr. Neruda acknowledged the award today as a "miracle" and said that it was an honor for Chile and Latin America.

"Sometimes we poets wait for miracles and here it seems that one has happened," Mr. Neruda said as he greeted newsmen in the library of the Chilean Embassy here.

Mr. Neruda, 67, was informed of the award by a telephone call from Swedish Ambassador Ingemar Hagglof.

"We Chileans are a little slow to react to things. I come from the real shoulders of the earth where there is not much to do and a lot of time to reflect. I will have to think about the significance of this for several days," he said.

Mr. Neruda said he considered the prize as a contribution to "the struggle for liberty of the people of Latin America."

"There is an enormous amount of creativity in Latin America which is unknown to us. I would like to see this prize benefit the struggle for liberty in Latin America, the richness of Latin American culture and the development of our continent's creative potential," Mr. Neruda said.

EEC Debate In Commons

(Continued from Page 1)

ment and inflation, was in a deplorable state. He said Prime Minister Edward Heath wanted to go into the market because he had no other economic moves to try.

"It's the despairing gambler's last throw," he said. The Conservative benches rang with sardonic laughter.

The leading pro-market figure on the Labor side, Roy Jenkins, sat on the front bench through the Healey speech, showing no expression. His apparent intention is to say nothing during the debate—and then vote "yes."

Mr. Jenkins has not given up his job as deputy leader of the Labor party before the Common Market debate, as some thought he would. But he and other pro-marketeers may still decide to resign their titles and return to the back benches before the vote next Thursday.

The actual motion before the House is just 25 words long. It resolves:

"That this House approves Her Majesty's government's decision of principle to join the European communities on the basis of the arrangements which have been negotiated."

If that is approved next Thursday, the next step will be for Britain and the six present community members to finish the final details of their negotiations. Then a treaty will be drafted and signed, probably before the end of the year.

Early next year, Parliament will begin a further and more arduous stage of debate—on detailed legislation to bring British law into conformity with Common Market rules. That legislation is likely to take many weeks, and there will be some close votes on procedural points.

Labor's Lead Over Tories Cut To 10% in Poll

LONDON, Oct. 21 (Reuters).—The opposition Labor party's lead over the ruling Conservatives in public popularity has dropped in the last month, according to a Gallup Poll published today.

The Daily Telegraph, reporting the findings, said the Conservatives had cut Labor's lead from 19 percent to 10 percent. It added that the narrowing of the gap between Britain's two main parties followed the pattern found by Gallup in past years after the party conferences—both parties recently held their annual conferences in successive weeks.

Prime Minister Edward Heath's rating had also gained a few points—35 percent said they were satisfied with him as prime minister, compared with 32 percent in September.

British Warship At Stettin; First Visit by West

WARSAW, Oct. 21 (AP).—A British frigate entered the Polish port of Stettin early today—the first such visit by any Western military ship to this part of Poland, which was once German territory.

Although the British Embassy in Warsaw has gone no further than to announce details of the five-day visit, diplomatic observers said it amounted to de facto recognition by London of Poland's western frontiers.

For years the Poles have been seeking international recognition of their western borders, which came under Polish "administration" in 1945 as a result of the Potsdam Agreement.

Last December, the West German government signed a pact with Poland which recognizes the former German lands as Polish territory. But the treaty is still awaiting ratification.

Making the courtesy visit is H.M.S. Ashanti, a frigate armed with Seacat missiles. As she steamed in, a Polish Navy ship, the Blyskawica, returned its 21-gun salute.

Airliner Crash Kills 16 at Peoria

PEORIA, Ill., Oct. 21 (AP).—A commuter airliner hit a power line and crashed while approaching the Peoria airport today, killing all 16 persons aboard, authorities said.

The Peoria Police Department said there were no survivors. The turboprop plane, a Chicago and Southern Airlines commuter, was en route to Peoria from Chicago.

Modern Art Theft in Italy

BIELLA, Italy, Oct. 21 (AP).—Thirty paintings by Italian modern painters have been stolen from an art dealer in this north Italian town, police announced today. The owner put a value of $160,000 on the paintings.

Housing Law Passes Final Vote in Italy

Expropriates Land, Shifts Slum Dwellers

ROME, Oct. 21 (AP).—Parliament gave final approval today to a controversial housing law that broadens the power of Italian cities to expropriate land and which promises to resettle tens of thousands of workers now living in substandard dwellings.

It was the second major victory this month for Premier Emilio Colombo's center-left government. Mr. Colombo had included the housing law on his list of urgent reforms when he took office in August 1970. Last Oct. 7, parliament approved a law revamping Italy's taxation system.

The housing bill had to go through both houses twice because of the haggling between the center-left parties over it.

Two other important reforms, dealing with health care and universities, are still pending in parliament.

The law's double objective is to discourage land speculation in chaotically growing and overcrowded cities and to provide cheap housing for workers.

The reform appropriates 2,400 billion lire ($3.8 billion) to pay for expropriations and state-financed housing over the next three years. Out of this sum, 75 billion lire ($113 million) have been earmarked to resettle shanty dwellers in Rome, Milan, Naples and other big cities.

The law imposes strict control by municipal authorities on land and newly-built houses. In some cases, it would make buying, selling and renting a house a complicated red-tape matter.

Mr. Colombo's Christian Democrats battled to salvage as much as possible of private property rights against their Socialist partners, who enjoyed the powerful backing of the unions. The unions staged two nationwide strikes and frequent demonstrations to speed up action on the bill.

Soviet HQ Is Fired Upon

(Continued from Page 1)

criminal act of a political nature against a foreign diplomatic mission in the United States."

Mr. Malik took the rostrum of the UN General Assembly to condemn the latest in a long series of attacks on Soviet offices and harassment of Russian personnel here and in Washington. He blamed American authorities for "not taking the necessary measures to prevent a systematic campaign of hatred against Soviet citizens in the United States by anti-Soviet organizations.

"I have been asked to make this statement to draw the attention of all delegates to the abnormal situation facing them in New York City," he told the assembly members. "We vigorously protest and ask the United States to put its house in order."

Mr. Bray said the incident should spur Congress to act quickly on an administration bill that would make such actions a federal crime. Secretary of State William P. Rogers phoned Soviet Ambassador Anatoly Dobrynin to assure him that "we will do all possible to apprehend those involved."

Mr. Malik said that Hunter College had often been used by Zionist organizations and that Sen. Jacob K. Javits, R., N.Y., and Mayor John V. Lindsay had attended such meetings after which "the participants usually marched on the Soviet UN Mission to continue the demonstrations."

George Bush, U.S. ambassador to the United Nations, told the assembly that the shooting was an "outrageous, cowardly and hostile act representing the very worst in the fanatical fringe of our society." He said that he had visited the parents of the children last night and found them "terrified."

"This shakes the heart and soul of any American," Mr. Bush said.

Ultra-Zionists Accused

MOSCOW, Oct. 21 (AP).—The Soviet Union charged tonight that ultra-Zionists in the United States tried to kill a group of Russian children at the Soviet Mission last night.

The government newspaper, Izvestia, said that the room that was struck by four bullets was occupied by "the young children who were watching television."

Since the room was well lighted, it said, "the bandits had calculated to kill the children."

Associated Press.

BOMB SCARE—Army bomb disposal men removing remains of powerful and sophisticated gelignite bomb which was defused last night on pavement outside Belfast's largest hotel, the Europa. The bomb was found earlier in the bar of the hotel.

Truck Bound for Children's Hospital

Ulster Hijackers Destroy Medical Supplies

BELFAST, Oct. 21 (UPI).—Gunmen hijacked and burned today a truck loaded with medical supplies for a Belfast children's hospital. Earlier, British troops arrested 20 more suspected members of the outlawed Irish Republican Army (IRA).

"I think the terror campaign has probably reached an all-time low," a senior army officer said of the destruction of the truck carrying supplies to the Royal Belfast Hospital for Sick Children.

Gunmen also hijacked a bus in a Roman Catholic area of Belfast, Old Park, ordered the passengers and drivers off and set the vehicle ablaze.

Door Is Kicked In

In the roundup of IRA suspects, troops arresting a man in the Ardoyne district kicked down a door to get him. Later, army engineers sent to repair the door came under a hail of rocks and bottles thrown by women, an army spokesman said. Troops dispersed the crowd by firing rubber bullets.

Army bomb experts were studying a bomb described as one of the most advanced yet encountered in Northern Ireland.

The gelignite bomb was found in a bar of Belfast's new Europa Hotel last night and the 84 guests were hurriedly evacuated. It was defused five hours later.

In a speech to the Northern Ireland Parliament, Prime Minister Brian Faulkner said, in a reference to arms smuggling, "I do not accept that Mr. [Irish Prime Minister Jack] Lynch can honestly say he is unaware of the activities of the leaders of the provisional IRA and official IRA who live in and who openly admit to such activities in the Irish Republic."

Mr. Faulkner said gunmen in the Irish Republic had fired across the border at security forces five times in the last week. Up to 80 percent of the IRA munitions seized in Ulster in the last few months had been smuggled from the republic, the prime minister said.

In Dublin, the Irish government prepared to back up its charge that British troops had violated the republic's border. A spokesman said full details of the incident would be sent to the British government, which asked for substantiation.

Mr. Lynch made the charge yesterday during a two-day emergency debate in Parliament on Northern Ireland. He said Irish police had reported British troops 300 yards inside the republic's border Tuesday near Castleblaney in County Monaghan.

Mr. Lynch said that if there were repeated and more serious incursions he would bring the matter to the United Nations as a threat to peace.

In parliament, spokesmen for all the major political parties denounced the violence in Northern Ireland, and a strong anti-British tone ran through most speeches.

Foreign Minister Patrick Hillery, who summed up for the government, described British policy in Ulster as "almost criminally foolish."

"Any politician in this part of the country who pretended that violence could be switched off by some decision in Dublin was wrong," Mr. Hillery said.

Memphis Riots Halt; 50 Injured, 51 Jailed

MEMPHIS, Oct. 21 (Reuters).—Calm was restored here this morning after the second consecutive night of rioting in which 50 persons were injured and 51 arrested, police said.

One of the injured suffered a gunshot wound, but most received cuts when stones or bottles were thrown through the windshields of their cars, police said.

Firebombing, sniping and looting occurred in various ghetto areas. The disturbances began after the funeral of 17-year-old Elton Hayes. His death has been held to be a homicide. Twenty-three policemen have been relieved of duty pending an investigation into the incident.

Irish Police Locate 'Gunrunner' (A Little Old Lady) and Clear Her

CORK, Ireland, Oct. 21 (UPI).—The hunt for the passenger whose name was marked on six trunkloads of guns aboard the liner Queen Elizabeth 2 ended in the parlor of an 83-year-old grandmother.

"I'm no gunrunner," said Mrs. Catherine Walsh yesterday in Parknaveena, County Cork.

The police had been searching for the passenger named Walsh whose name was marked on the suitcases of submachine guns, pistols and hand grenades shipped from New York and landed here Tuesday.

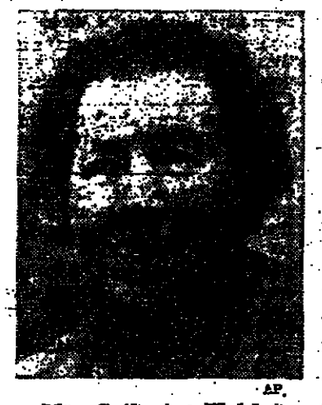

When they found her, the police said they were satisfied that she had nothing to do with the affair.

Mrs. Walsh said, "I'm afraid I know nothing about the guns. I hardly know anything about the IRA," the Irish Republican Army, for whom the guns were believed destined.

Mrs. Walsh, who lives in Greenwich Village in New York, came here for a holiday with cousins. "I intend to settle down in Dublin," she said.

She said she had shared her cabin with two young English nurses on the voyage.

"It is a long time since I received so much attention," she added.

Mrs. Catherine Walsh

Nominates Powell, Rehnquist

Nixon Surprises U.S. in 2 Court Choices

(Continued from Page 1)

ABA he is terminating the procedure of submitting names of potential Supreme Court nominees to the ABA in advance.

This reflected Mr. Nixon's extreme dissatisfaction with the ABA's judgment regarding names submitted and his unhappiness over leaks of ABA's reccomendations to him.

Explaining his two nominations, Mr. Nixon said proposals had included appointing a woman and appointing a member of Congress. Others wanted appointments from religious or national groups, he said.

But, he added, he believed the entire nation should be represented. He said High Court members should be among the very best lawyers in the United States.

The President said his two appointments meet these high requirements.

Mr. Nixon said, "It may be charged that they are conservatives. This is true, but only in a judicial, not political sense."

Mr. Nixon compared Mr. Powell to John Marshall, a Virginian who was the third and probably the most important Chief Justice in history.

Senate hearings are expected to begin in about 10 days.

White House Press Secretary Ron Ziegler told reporters just before noon that the President had reached a decision on the two nominees and would announce their names in a television address to the nation.

The press secretary declined to discuss the President's reaction to the findings of the American Bar Association's Judiciary Committee, but he made it abundantly clear that the President regarded its role as advisory only and would not be bound by it.

"I'm not going to discuss the consultations the attorney general has had with the ABA," Mr. Ziegler replied. All of Mr. Ziegler's comments in recent days have made it clear it was the attorney general, not the President, who was consulting the ABA.

"The President has decided to proceed," Mr. Ziegler added. "The Senate has a responsibility to give its advice and consent. The Constitution does not require the consent of the ABA.

"We welcome their advice, of course, but they do not have veto power."

Asked why the President chose to make the announcement on television, Mr. Ziegler replied only that Mr. Nixon made the decision to do it that way.

The President announced the appointment of Warren E. Burger as Chief Justice on television in May, 1969, but not the names of the three associate justices he has nominated prior to today.

When a reporter asked if the President's sudden decision to make the announcement on television immediately after the ABA's adverse opinion might not be regarded as presidential pique, Mr. Ziegler replied: "No, I wouldn't say that."

Mr. Ziegler suggested that the President had virtually made his decision on the two individuals sometime yesterday, but he said that the "final decision" was made this morning.

The President had not spoken to the two he had decided upon before noon today, but the attorney general had, Mr. Ziegler explained.

Asked if he were confident that the nominees would be confirmed, Mr. Ziegler said that Mr. Nixon "would not be sending their names to the Senate if he felt otherwise."

Tanzania Says Ugandan Jets Strafe Mills

DAR ES SALAAM, Tanzania, Oct. 21 (Reuters).—Tanzania said today five Ugandan fighter planes strafed and fired rockets at Tanzanian saw mills but there were no casualties and only minor damage was caused.

A Tanzanian government statement said the Kagera saw mills at Mutukula, near the Ugandan border, suffered some roof damage in last night's attack and there were minor hits on nearby civilian property.

The statement described the attack as a new turn in "the provocations against Tanzania by the puppet regime of Maj. Gen. Idi Amin (president) of Uganda."

In Kampala, the Ugandan capital, there was no official reaction to the Tanzanian statement. Uganda announced last night its jet fighters attacked Tanzanian positions south of Kutukuma, destroying a Tanzanian army camp.

Rap Brown Arraigned For Attempted Murder

NEW YORK, Oct. 21 (UPI).—Black militant H. Rap Brown, who eluded an FBI search for nearly two years, was arraigned in a hospital room yesterday on charges of attempted murder, robbery and illegal weapons possession and ordered held in $250,000 bail.

Brown was recovering from two abdominal bullet wounds received in a gunfight with police last Saturday, following the holdup of a West Side bar. Three men were arrested with Brown and are being held in $100,000 bail on similar charges.

QE2 to Leave Cherbourg

PARIS, Oct. 21 (IHT).—The liner Queen Elizabeth 2 will depart for New York tomorrow from Cherbourg, rather than Le Havre because of strike conditions at Le Havre, Cunard officials in Paris announced last night. The boat-train will leave Gare St. Lazare at 5 p.m. and the liner will sail about 10 p.m.

He Discusses Jews

Kosygin Is Heavily Gu... On His Arrival in Mont...

MONTREAL, Oct. 21 (UPI).—Soviet Premier Alexei Kosygin, guarded by scores of security personnel, arrived by special train from Ottawa today on the second stop of his eight-day cross-Canada tour.

Officials were not taking any chances with the 67-year-old Soviet premier since an attack on him in Ottawa Monday. He was surrounded with guards from the Royal Canadian Mounted Police, Montreal police and the KGB—the Soviet security police.

Mr. Kosygin's train pulled into a special rail siding under the Queen Elizabeth Hotel, which was used for arriving dignitaries during Montreal's world's fair in 1967. The siding was patrolled by at least 40 plainclothes police.

Reuters said a handful of demonstrators carrying signs reading "free the Russian Jews" in French mingled in a crowd opposite Mr. Kosygin's hotel as he arrived. Mr. Kosygin was almost immediately driven to a lunch on St. Helen's Island, the site of Expo 67 and now a permanent exhibition called "Man and His World."

Mr. Kosygin yesterday told a news conference: "I must say that there is no Jewish question in the Soviet Union.

"Jews, together with other people, are working hard to build communism in the Soviet Union, working as hard as anyone."

He added, "It is true that we are restricting in some cases the departure of some people—notably those who have just completed their education on which a great deal of money has been spent—nor can we supply Israel with soldiers. But we will continue to permit people to go."

Agnew Convinced Greek Junta Will Give Democracy

ATHENS, Oct. 21 (AP).—Vice-President Agnew said today he is convinced that Greek Premier George Papadopoulos "intends to return his country to representative government." He did not say when.

Relaxing today in Athens, Mr. Agnew has, in five days of conferences and tours, uttered no public word that would imply pressure, or persuasion, for prompt liberalization of the authoritarian Athens regime.

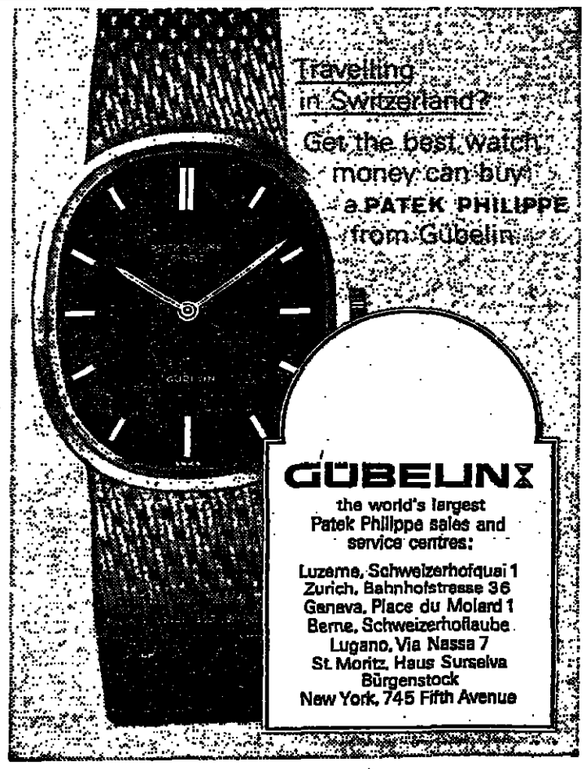

He has extended compliments to Mr. Papadopoulos for progress in such areas as health, education and welfare.

"I found the premier a highly intelligent and very frank man who, I am convinced, intends to return his country to representative government," Mr. Agnew said. "Were this not so, he would not have been instrumental in the promulgation of the constitution that calls for exactly that," the Vice-President added.

...noi Gunners Shell Airfield ...Tay Ninh and Pace Base

...ON, Oct. 21 (UPI).—...Vietnamese gunners shell-...sprawling airfield at Tay ...orthwest of Saigon, today, ...at least four persons and ...ing seven U.S. trucks. The ...Vietnamese also continued ... on U.S. Firebase Pace ...cket and heavy-weapons ...

...s the border in Cambodia, ...Vietnamese troops called ...ig drive through the Krek ...plantation area after two ...fruitless efforts to catch ...an elusive North Vietnamese regiment.

The new North Vietnamese shelling attacks were concentrated in the Tay Ninh area near the Cambodian border and Pace, five miles south of Krek and just inside South Vietnam. Tay Ninh is headquarters for the fighting operations northwest of Saigon.

North Vietnamese forces shelled Tay Ninh's big Trang Lung Airfield last night and early today, killing at least four persons and wounding six others, a UPI correspondent reported from the scene. All but one of the dead were civilians.

GI Toll Is Five Dead

The U.S. Military Command said today five Americans were killed in the war last week, the lowest weekly combat toll in more than six years.

It was the second consecutive week in which less tha... ten soldiers were killed. Eight were killed the previous week.

The latest report brought to 45,577 the number of Americans killed in fighting in Indochina since Jan. 1, 1961.

While the U.S. toll was again low, the South Vietnamese reported 391 killed, the highest casualties in five weeks and more proof that although the American role in the war is receding, the war itself goes on. The Saigon toll also reflected increased fighting along the Cambodian border near Krek.

Another 84 U.S. servicemen were wounded in actio... last week, 12 more than the previous week. Another 15 servicemen died in what the command calls nonhostile causes such as traffic accidents, drug overdoses, illness and drownings.

In Saigon, police today thwarted an attempt by high school students to set fire to American automobiles in what protest leaders said was a demonstration against the forthcoming inauguration of President Nguyen Van Thieu.

Meanwhile, the South Vietnamese Supreme Court today deferred for the third day a ruling on suits challenging the legality of Mr. Thieu's unopposed reelection last Oct. 3. Court employees said the nine justices were deeply divided.

A court spokesman announced after an all-day session among the nine justices that the ruling now had been rescheduled for Friday.

2 GIs Ransomed

DA NANG, Oct. 21 (AP).—A crowd of angry Vietnamese held two American soldiers hostage for three hours near here yesterday until a ransom was paid after a U.S. jeep struck a five-year-old boy and seriously injured him.

The crowd demanded payment of one million piasters (about $4,000) but settled later in the day for a payment of 250,000 piasters.

A 2d Unit at Firebase Pace Disputes an Order to Patrol

FIRE BASE PACE, South Vietnam, Oct. 21 (UPI).—U.S. soldiers replacing men who had refused to go on patrol also refused a patrol order last week until the base defense commander explained why the patrol was necessary, it was reliably learned today.

The second incident in a week at this artillery fire support base on the Cambodian frontier lasted only an hour.

It involved 20 members of an infantry platoon that was part of Delta Company, 1st Battalion, 1st Air Cavalry Division. Delta was sent to Pace to replace Bravo Company, which was pulled out after six of its men refused to go on patrol Oct. 9.

The men told a newsman they did carry out the mission after successive confrontations with their platoon leader, their company commander and the base defense commander.

No Charges Planned

Maj. Joseph D. Dye, the defense commander, said the refusal is now a "dead incident" and no charges will be brought.

Members of the 2d Squad, 3d Platoon of Delta Company, said they had heard of the earlier incident following their arrival here and had made up their minds not to take chances they deemed unnecessary.

"We were told to go on patrol and we said no," one soldier said.

"Before we came here we were told we were not going out on any offensive patrols," said Spec. 4 Dennis Van Order, 20, of Ocean City, N.J.

"It's not that we're scared, but everyone figures the war is going to be over soon and who wants to be the last one to get killed," said Donald K. Triplett, 21, of Miami. "Eighty percent of the guys here feel that way."

The purpose of the patrol, officers said, was to go east to a line of thick woods and watch for Communist mortar activity.

Reds Send In 2d Team Again At Paris Talks

PARIS, Oct. 21 (AP).—U.S. Ambassador William J. Porter told the second-string Communist negotiators at the Paris peace talks today that they seem to lack the authority even to explain the Communist side's own proposals.

For the fourth week in succession, the chief Communist negotiators, Hanoi's Xuan Thuy and the Viet Cong's Mrs. Nguyen Thi Binh, were represented by deputies. It was the 133d session of the talks.

In a 90-second speech to the fruitless meeting, Mr. Porter scornfully told Hanoi's Nguyen Minh Vy and the Viet Cong's Nguyen Van Tien:

"You apparently are not even authorized to explain and clarify your own proposals. No progress is possible here if you continue to deliver ultimatums, to pose preconditions to negotiations and to insist that your version of the conflict should be adopted as the sole basis for settlement."

Brazilian to Visit U.S.

RIO DE JANEIRO, Oct. 21 (NYT).—Gen. Emilio G. Medici, president of Brazil, has accepted an invitation to visit President Nixon and the U.S. beginning Dec. 7.

Cambodia Set To Devalue at Secret Rate, Date

PHNOM PENH, Oct. 21 (AP-DJ).—The Cambodian government said today it is devaluing its national currency, the riel, to a "realistic level"—but it clamped a classification of "state secret" on the new exchange rate and on when it would go into effect.

It was the first government action since Premier Lon Nol announced yesterday that "democracy and freedom" were a futile game to play in wartime and that he henceforth would rule by decree. He had already reduced the National Assembly to a powerless body and ousted opponents from his cabinet.

"I cannot tell you" what the new rate will be, said Sok Chhong, second vice-premier for economic affairs. "It is a state secret."

Later, an official explained that Cambodia's national bank and representatives of commercial banks are to meet three times a week to set an exchange rate based on the amount of foreign currency requested by businessmen and the size of the country's foreign exchange holdings.

There was no immediate information available on how currency transactions will be handled till a new rate is announced.

A New Clue May Help Locate Lost Remains of 'Peking Man'

NEW YORK, Oct. 21 (Reuters).—A clue has been found to the lost remains of "Peking Man," a precious relic of human life in eastern Asia half a million or more years ago, according to American anthropologist Harry L. Shapiro.

The fossilized remains, dug up near Peking between 1927 and 1939, have been missing for 30 years.

Prof. Shapiro, curator emeritus of physical anthropology at the American Museum of Natural History, said in an article in Natural History magazine that at least some of the fossils may be in Tientsin, where they were deposited when an attempt to get them out of war-torn China in 1941 failed.

He said the new information about the fossils had come from Dr. William Foley, a vascular disease specialist, who once served with the U.S. Marines in China. Dr. Foley had not appreciated the importance of his knowledge until he recently began to write his memoirs.

Captured by Japanese

Dr. Foley, the article said, had disclosed that he was assigned by his commanding officer to get the fossils to the United States.

As he was leaving China with the fossils, Dr. Foley was captured by the Japanese and confined to the town of Tientsin. Fearing that he would soon be imprisoned, Dr. Foley hastily asked a number of Chinese friends to keep some of the crates of bones. Other crates he deposited at the Swiss warehouse, at the Pasteur Institute, and with Chinese friends.

Dr. Foley was imprisoned from 1941 to 1945. "I didn't follow up the search for the fossils," he explained, "because I was a very junior officer and I relied on senior officers to carry on the search."

Names and Addresses

Although Dr. Foley still has the names and addresses of the persons to whom he gave the fossils, he said he feared that any public search for the bones now would result in political reprisals against the Chinese who cooperated. He said some of the new information has been sent to China in the hope that the Peking government will permit a search for the bones.

The remains, which provided the first proof of man's early existence in eastern Asia north of the Himalayas, were discovered at Choukoutien, near Peking. A single tooth was found in 1927, then a brain case, and later the remains of 38 people of various ages.

Peking Man's age is not yet certain. When first identified, he was thought to be about two million years old. Today scientists generally place him in the mid-Pleistocene era at 500,000 years, but new dating methods may place his age some 150,000 years older.

Russia Can't Buy Land George Washington Had

WASHINGTON, Oct. 21 (UPI).—The State Department advised the Soviet Embassy today it could not approve Russian purchase of a $1 million 28-acre tract of land near the Mount Vernon home of George Washington for use as a "recreational area" by embassy officials and employees.

A spokesman said Secretary of State William P. Rogers decided last week that "purchase of land of historic interest by any foreign nation" could not be approved.

The Russians had sought to buy from a private owner the Potomac River estate on land once owned by Washington, who built a home there before he moved to nearby Mount Vernon.

The State Department spokesman said he knew of no legal designation of the property as "historic" although he said its nature was obvious by its location.

The department has no specific legal authority to bar the purchase, but it has an understanding with the Russians that they will neither lease nor buy property in the United States without the department's approval.

UNESCO Aide Is Held in Congo

KINSHASA, Congo, Oct. 21 (UPI).—Congolese police detained a French UNESCO official and five Africans suspected of issuing propaganda against President Joseph Mobutu, a government spokesman said today.

He said that a Frenchman identified as Menargues of the National Building and Public Works Institute and a member of the UNESCO Technical Assistance Service was the brains of the plot, which also included a high-ranking Rwandese civil servant and four Congolese.

Security sources said that the organization had existed for a long time and had already sent young Congolese to Eastern European countries for secret tasks long before President Mobutu came to power.

Ford Recalling 340,761

DEARBORN, Mich., Oct. 21 (AP-DJ).—Ford Motor Co. said it will be recalling Capris and Cortinas for potentially bad steering mechanisms. Worldwide, 340,761 units are affected by the recall. Ford said that Ford of Europe had reported 21 instances of steering failure.

Manila Embassy Bombing Injures American Family

MANILA, Oct. 21 (UPI).—Young demonstrators tossed home-made bombs at the U.S. Embassy today, injuring an American diplomat, his wife and one of their children as they were driving out of the chancery grounds.

An embassy spokesman said that Allan E. Croghan, 41, of Los Angeles, assistant cultural affairs officer at the embassy, his wife and a daughter suffered minor injuries from flying glass when "some kind of an explosive device" shattered their car's windshield. Mr. Croghan's son, who was also in the vehicle, was not injured.

About 300 demonstrators picketed the embassy to protest "U.S. business imperialism" and alleged Philippine government subservience to the United States.

Suicide Notes Cited

FBI Role in Fatal Hijacking Defended by U.S. Air Agency

By George Lardner Jr.

WASHINGTON, Oct. 21 (WP).—Federal Aviation Administration officials said yesterday that FBI agents may have had information on a U.S. aircraft hijacking that warranted their determination to stop the flight by pumping bullets into the plane despite being told by the pilot to stay clear.

It is suggested that the FBI tried to halt the plane through gunfire because it believed that the hijacker, George M. Giffe, intended to kill himself and all four others aboard, perhaps by crashing the plane into the sea on its way to the Bahamas.

The Nashville police reported finding five suicide notes that Giffe had left behind before commandeering the plane on Oct. 4. Their contents, officials indicated, may have been relayed to the FBI before the plane landed again at Jacksonville International Airport.

Three persons, including the captive pilot, Brent Q. Downs, 29, hijacker Giffe, 35, and his estranged wife, Susan, 25, were killed aboard the plane at Jacksonville, where the occupants had been led to believe they could refuel without interference.

Pleas Rejected

Rejecting the pilot's desperate pleas that they stay away from the craft, FBI agents began pumping bullets into its wheels and one of its engines after drawing a burst of gunfire from Giffe, a 300-pound Nashville real-estate man who had hijacked the plane at the Nashville airport.

Giffe then turned his .45-caliber automatic on the pilot, Mrs. Giffe and finally himself. The two others aboard, co-pilot Randall Crump and Billy Wayne Wallace, 32, a friend and alleged confederate of Giffe, had jumped off the plane moments before the shooting broke out.

The FBI has refused to comment on the case, saying it is currently "a matter of litigation." Attorneys representing the widow of Mr. Downs; the owner of the plane, Jack P. Brothers jr., and Mrs. Giffe's family said in Nashville yesterday that they would seek a federal court order permitting them to question both FBI agents and FAA officials about their role in the incident.

According to a transcript obtained by The Washington Post of the last radio transmissions between the pilot and authorities, Mr. Downs had been assured several times that a fuel truck would be standing by in Jacksonville and that the area would be kept clear. When he found out differently, he protested to the FBI that they were "endangering lives" and repeatedly asked them not to interfere.

Relatives and friends of Mr. Downs and Mrs. Giffe have accused FBI agents of mishandling the case. Mr. Brothers, owner of a Nashville flying service that operated the hijacked plane, has maintained that the FBI was "responsible for the deaths."

Officials of the Air Line Pilots Association said yesterday that the incident, at least on the surface, violated a "gentlemen's agreement" with the FAA that a pilot has command of his airplane "from the time the door is closed until it's open again."

Capt. Earl R. Waggoner of Los Angeles, a TWA pilot who heads ALPA's flight security committee, said exceptions could and should be made when authorities on the ground have information not available to the pilot—"such as suicide notes and other evidence to support their belief it's going to be a suicide and not just transportation."

An FAA spokesman, Dennis Feldman, said an agreement signed last fall by Secretary of Transportation John A. Volpe and Attorney General John N. Mitchell gives the pilot the final word only when a plane is "in flight" or moving along a takeoff or landing runway.

Claimed to Be Sorcerer

Under that same agreement, he said, the FBI had full authority in Jacksonville. Mr. Feldman said it was his understanding that Giffe's notes, found in the car he left at the Nashville airport, implied that he "wanted to take everybody with him."

In one of the notes, addressed to his father, Giffe, who reportedly claimed to be a sorcerer, said he had been "ordered to kill."

FBI spokesman Thomas Bishop said he could not discuss the case, except to disagree that a remark —"You can't win 'em all"—had been made in the control tower at Jacksonville after the shootings.

Sources told The Washington Post that the comment was audible as background conversation on the FAA's tape recordings of transmissions between the pilot and the tower, although it was not contained in the transcript. Mr. Bishop said flatly that "there was no such thing on the tapes."

2 Italian Jets Crash

VENICE, Oct. 21 (AP).—Two F-104 jets of the Italian Air Force crashed into the Adriatic 30 miles north of Venice yesterday, police said. Both pilots are missing.

Lady Fleming Let Out of Jail For 8 Months

Term Is Interrupted For Health Reasons

ATHENS, Oct. 21 (UPI).—A civil court ruled today that Lady Amalia Fleming should not be imprisoned now although she already had started serving a 16-month term for her role in a prison escape plot. The sentence was suspended for eight months.

The court in Piraeus said the jail sentence might endanger the health of Lady Fleming, 62, the widow of Sir Alexander Fleming, the discoverer of penicillin.

"This is a marvelously humanitarian law," Lady Fleming said. "I did not know it existed." Lady Fleming is said to be suffering from a number of ailments, including diabetes.

She was sentenced to imprisonment last month by a military tribunal which found her guilty of joining a conspiracy to free Alexandros Panaghoulis, convicted in 1968 of attempting to assassinate Premier George Papadopoulos.

The ruling in Piraeus meant that Lady Fleming still must serve her full jail term, but she will not be required to return to prison for eight months.

Buckingham Palace

"Everyone was good to me," Lady Fleming said of her jailers. "I was able to have special food sent to me. Compared to the military police headquarters where I was held pending trial, the prison was like Buckingham Palace."

Lady Fleming and four other persons, including theology student John Skelton, 26, of Yardley, Pa., were convicted Sept. 28 for their role in the escape plot. Skelton's sentence was suspended and he left Greece.

Lady Fleming attended the hour-long court hearing and heard six doctors testify that because of her health, she should be at home in case emergency treatment was needed.

It took the court 15 minutes to agree.

Nixon, Agnew to Speak

CHICAGO, Oct. 21 (AP).—Both President Nixon and Vice-President Agnew will appear at a Republican fund-raising dinner in Chicago on Nov. 9, the sponsors announced yesterday. The $500-a-plate dinner will be the one from which the President will address, via closed-circuit TV, similar fund-raising events in 20 other cities.

House Votes Alaska Natives $925 Million, 40 Million Acres

WASHINGTON, Oct. 21 (NYT). —The House passed yesterday a bill to settle the century-old land claims of Alaska's natives by paying them $925 million in cash and granting 40 million acres of land to 55,000 Eskimos, Indians and Aleuts.

The vote was 343 to 63.

The long controversy over the native claims now passes to the Senate where native leaders are expected to press their fight for more land, at least 60 million acres, and other benefits.

The bill would settle for all time the land claims of the Eskimos, Indians and Aleuts, whose ancestors lived in Alaska before the United States bought it from Russia in 1867.

Senate Has Acted

A bill reported by the Senate Interior Committee would give the natives $1 billion in cash and royalties from mineral rights, including oil, and 40 million acres of land with some qualifications.

Both bills, however, would permit the government to go ahead with the proposed trans-Alaska oil pipeline to tap the proven oil-rich lands around Prudhoe Bay. The bills provide for exclusion from the native land claims of a 12-mile-wide corridor of land for construction of the 789-mile pipeline from the North Slope to a terminal point at Valdez on the Gulf of Alaska.

It was the first time a native claim bill had reached the House floor. Similar measures have been bottled up in recent years by the House Interior Committee, which is headed by Rep. Wayne N. Aspinall, D., Colo.

The Senate Interior Committee is headed by Sen. Henry M. Jackson, D., Wash., an aspirant for the Democratic presidential nomination.

Twelve conservation organizations already have appealed to President Nixon to use his power to keep exploiters from getting their hands on any land allocated to natives and on land still to be held by the federal government, once native and state selections are made.

13 Are Killed By Gas Blast In Glasgow

GLASGOW, Oct. 21 (Reuters). —At least 13 persons were killed and 100 injured today in a gas explosion that wrecked a row of shops in Glasgow's Clarkston district.

People were buried under tons of rubble and screams for help came from beneath the debris. The police said the death toll could be much higher than 13.

Firemen, policemen and volunteers worked through pouring rain to remove victims from the debris and at least 50 persons were rescued.

All available doctors and nurses were pressed into action and private cars helped ambulances bring the injured to hospitals.

The blast was believed to have been caused by a gas leak. The area was evacuated two hours later when another leak was discovered.

The explosion, which occurred at about 3 p.m., blew out windows all along the street. Many of the injured were in a double-decker bus that was passing at the time.

Plainclothes Police Shake-Up Follows N.Y. Graft Testimony

NEW YORK, Oct. 21 (AP).—Police Commissioner Patrick Murphy announced a shake-up of his plainclothes division yesterday as a special commission on New York City police corruption heard new testimony about graft.

The star witness before the Knapp Commission, former plainclothes patrolman William Phillips, said that a policeman in the borough of Queens had distributed $80,000 among fellow officers after seizing the money in a narcotics raid.

Also related by tape recordings was the case of a police inspector who took $1,500 a month in payoffs but who was caught when he solicited smaller gifts. He was not identified.

Without any reference to the testimony, Commissioner Murphy transferred 338 policemen into or out of the department's 400-man plainclothes division. A spokesman said the moves were part of department policy in rotating plainclothesmen on a two-year basis. The New York police force numbers nearly 32,000 men.

Yesterday was the second day on the witness stand for Phillips, who has served 14 years on the police force. When he was exposed as a bagman—a distributor of graft among policemen—he went to work as an undercover man for the Knapp Commission, which was set up by Mayor John Lindsay to investigate police corruption.

Presumably, Phillips sought by his testimony to gain immunity or leniency in any prosecution after the commission's hearings.

In his testimony Tuesday, Phillips said that "to my knowledge" there was no plainclothesman in the city who was not "on the pad"—taking graft.

"I know it is not a fact," Commissioner Murphy said at a news conference yesterday. "I am saying that a lot of plainclothesmen are not on the pad."

"This is a long story told by a corrupt policeman," Mr. Murphy declared at another point. "He obviously now is a man on a hook, squirming to get himself off the hook."

United Press International.
Yugoslav man with gun in wife's back being escorted to car in Oerebro, Sweden.

Yugoslav Kidnaps His Swedish Wife, Son

OERREBRO, Sweden, Oct. 21 (Reuters).—A 27-year-old armed Yugoslav immigrant holding his Swedish wife and baby son hostage in a bid to get them out of the country was tonight being driven in a police car toward Sweden's south coast.

The car was believed to be heading for a Baltic port from which the gunman, who has not been named by authorities, hoped to take his family across to East Germany or Poland on a ferry.

Trailed by police vehicles and newsmen, the car left this central Swedish city, west of Stockholm, nine hours after the man seized his Swedish wife in a doctor's waiting room here and threatened to shoot her.

The Yugoslav commandeered a police car to drive him and his wife 110 kilometers south to a township near Mariestad to collect the couple's one-year-old son, who was staying with foster parents.

There, police pleaded with him for three hours not to go ahead with his plan, which originally involved taking a plane from Stockholm to Yugoslavia. The Foreign Ministry had cleared his departure after being told by police the man was desperate.

But on his return to Oerebro, to get his wife's passport, he apparently changed his mind after police explained that no pilot would agree to fly an armed man.

Police said the man, who is divorcing his wife, arrived in Stockholm early today and came straight here. He had previously lived in Sweden for six years. An application he made for custody of the child was turned down by a court earlier this year.

Police said they are doing everything to slow down the course of events in the hope that the man will give up. "But ... has that gun dug into his wife's ribs and we simply can not risk taking action."

Angelos Clones Dies at 41; Foe Of Greek Regime

WASHINGTON, Oct. 21 (WP). —Angelos Clones, 41, a Washington economist and one of the leaders of the international resistance movement against the military junta in Greece, died of cancer Tuesday at George Washington University Hospital.

Mr. Clones, a native of Athens, Greece, immigrated to the United States in 1946.

A close friend of the exiled Greek political leader, Andreas Papandreau, Mr. Clones was secretary of the Friends of Greece, a Washington committee of professional people dedicated to the restoration of democracy in Greece.

Elving G. Sandstrom

MADRID, Oct. 21 (AP).—Elving G. Sandstrom, 46, Swedish Consul in Madrid, died at his home yesterday, the Swedish Embassy said today.

A spokesman said the cause of death was believed to be a heart attack. Mr. Sandstrom had been in Madrid for six years, the spokesman said.

Nagoya Shiga

TOKYO, Oct. 21 (AP).—Nagoya Shiga, 88, a novelist and short story writer considered one of the most important figures in modern Japanese literature, died today of pneumonia.

Mr. Shiga was elected first president of the Japanese branch of PEN, the international writers' organization.

Watson Receives Death Sentence In Tate Murders

LOS ANGELES, Oct. 21 (UPI). —Charles (Tex) Watson was sentenced to death today for the Sharon Tate murders. All members of the Charles Manson "family" tried in the seven murders have been sentenced to death.

Watson, 25, was refused a life imprisonment by the same jury of six men and six women that had convicted him of first-degree murder and rejected his plea of not guilty by reason of insanity.

Manson and three women followers, Susan Atkins, Patricia Krenwinkel and Leslie Van Houten, had been sentenced to death at the first trial which Watson, a former high school athletic star and excellent scholar, had avoided by fighting extradition from his hometown of McKinney, Texas.

No Manson family members were in the courtroom. Virtually all of them were in jail following the arrest yesterday of six of them as accomplices in the jailbreak of Kenneth Como, 31. Como was captured later in the day.

Soviet Scientist Reported Fired Over Emigration

MOSCOW, Oct. 21 (AP).—A Soviet scientist has been expelled from the Communist party and deprived of his university post for seeking to emigrate to Israel, reliable Jewish sources reported tonight.

According to the sources, Dr. Alexander Lerner was recently summoned to appear before the administrative authorities of the Moscow institute where he headed an experimental laboratory and lectures on cybernetics, a science related to motion control.

The institute officials reportedly told Dr. Lerner that they had an invitation, in his name, from Israel. Would-be Soviet emigrants are required to obtain such documents before they can begin applying for permission to leave.

"This is Zionist propaganda," the officials then reportedly said. "We are sure you will give it the deserving answer."

Dr. Lerner, who is Jewish, responded: "I am sorry, but that is my invitation and I do want to go to Israel."

The sources were unable to provide further information on the meeting, but said that Dr. Lerner was subsequently ousted from the institute and prohibited from delivering any further lectures. Last week, they added, he was expelled from the party.

Czechs Affirm Hard-Line Policy And Soviet Ties

PRAGUE, Oct. 21 (AP).—Czechoslovakia's ruling Communist party announced tonight a hard-line foreign policy based on permanent obedience to Moscow and on exploiting conflicts among the non-Communist powers.

"There is a transition in the camp of imperialism—from the domination of the U.S.A. to the emergence of three centers of imperialist competition, the U.S.A., Western Europe and Japan," the party Presidium's report to the Central Committee declared.

It said deepening conflicts among the capitalist countries such as the "dollar crisis," must be calculated with and "there must be flexible reaction to all centrifugal tendencies in order to achieve isolation of the most aggressive forces of world reaction."

The document was presented to a one-day Central Committee meeting. It said "the main criterion for differentiating between the forces of progress and reaction . . . is in the attitude toward the Soviet Union." This statement, which could be applied against Romania and China as well as the West, meant that criticism of Moscow is per se reactionary.

Seized TV Films Used by Pakistan For Propaganda

KARACHI, Oct. 21 (NYT).—Television film confiscated from foreign news teams last May by Pakistani Army authorities has been put to use for propaganda purposes by the Pakistan government, it has been disclosed.

Last March 26, several days after the government moved its occupation army into East Pakistan to crush the Bengali resistance, about 40 foreign correspondents covering the civil war were expelled by the military.

The newsmen were forced to leave virtually all their notes, manuscripts, still photographs and movie and television film.

In a meeting with foreign correspondents here Tuesday, Asghar Azhar, general manager of Pakistan's government-operated television channel, disclosed that the seized foreign television films had been made available for Pakistani propaganda films.

ice Check ge Protests Japanese

0 in Riot Gear Against 500,000

Richard Halloran

O, Oct. 21 (NYT).—ggressive police tactics at monstrations by leftists icals today prevented han minor disruptions

kyo, police estimated that nembers of the Japan ist party, Japan Socialist Komeito (clean governarty), and labor unions and marched in an or- International Anti-War monstration.

ddition, an estimated adicals clashed with police ifferent places. But they ld in check with tear er cannon mounted atop trucks, and crunching by the blue-helmeted i" or riot police, who rmed with aluminum nd nightsticks. No serious have been reported.

Associated Press.

Students demonstrating with flags and bamboo staves yesterday in Tokyo.

In all of Japan, an estimated 500,000 persons took part in demonstrations, including 90,000 in Osaka in central Japan. The American Consulate in Sapporo, on the northern island of Hokkaido, was stoned by 1,500 radicals.

[All told, 451 demonstrators have been arrested, Reuters reported.]

The Kidotai turned out 57,000 men, 13,000 in Tokyo, to control the demonstrations. They concentrated on the radicals, taking the initiative and keeping their adversaries—who had openly threatened extensive violence—almost completely off balance.

The militant radicals increasingly have been using fire-bombs in recent weeks, following their ambush and murder of three policemen last month. They have vowed to destroy the Kidotai, overthrow the government of Premier Eisaku Sato, and bring revolution to Japan.

The demonstrations coincided with a special session of the Diet (parliament) called to ratify a treaty with the United States to return Okinawa to Japan. The leftists oppose the treaty, largely because American military bases will remain on the island.

To Protect Poor Countries

Canadian Bishop Urges Curbs on Abuses of U.S. Businesses

VATICAN CITY, Oct. 21 (UPI).—A Canadian bishop, citing by name some of the biggest firms in American industry, called today for a combined capitalist and Communist watchdog body to curb business abuses in poor nations.

The Most Rev. Alexander Carter, bishop of Sault Ste. Marie, did not accuse the U.S. firms specifically of wrongdoing, but he said that many international business giants were guilty of greedy and monopolistic practices.

"These giants must be made accountable for their actions," Bishop Carter told the Roman Catholic Church's Synod of Bishops.

He proposed an international authority—"representing both capitalist and socialist nations"—to draw up a business code and hear complaints from poor countries which believe that they are victims of business abuses.

Diplomatic Pressures

Bishop Carter also proposed that Pope Paul VI order Vatican diplomats to exert pressure on the parent governments of giant companies to curb abuses.

The annual gross sales of American overseas corporations total almost $200 billion, Bishop Carter said, calling it a figure surpassed only by the gross national products of the Soviet Union, Japan and the United States.

If gross national product and gross annual sales were tabulated, Bishop Carter said, 50 of the first 100 names would be private corporations.

Only four African states, for example, he said, appeared on the list—Nigeria, 39th after General Motors and Ford; Algeria, 61st after General Electric; Morocco, 64th after Westinghouse, and Ghana, 78th after Union Carbide.

Other speakers attacked Israeli policy in Jerusalem and the Middle East, decried torture, abortion, cruel treatment of prisoners of war and the tendency to use violence to obtain justice.

POW Treatment

John Cardinal Carberry, archbishop of St. Louis, asked the synod to condemn abortion, racial discrimination and the "unjust and cruel" treatment of prisoners of war.

"We ought to urge justice toward prisoners of war, their parents and their wives and children," he told the assembly. "Both sides in a war treat the prisoners unjustly and cruelly."

He did not cite any specific examples.

William Cardinal Conway, the Irish primate, called for protection against "unjust questioning" of suspects held by authorities. He did not cite any examples, but some Vatican sources said that he might have been referring to detentions and reported abuses of suspects in Northern Ireland.

Israeli policy was attacked by Coptic Patriarch Stephanos I Sidarouss of Alexandria, Egypt, who said that a "scandalous situation" existed among Palestinian refugees.

He also accused Israel of changing the nature of holy places and carrying out mass expulsions.

"If the Christian conscience is stirred by earthquakes, floods, train and air disasters," Patriarch Stephanos asked, "is it not strange that it is not touched by the crucial problems of the holy places and population?"

The patriarch said that it was "neither wise nor natural" that the exclusive right to the holy lands should belong to Jews—"by virtue of the law of force."

U.S. Detects A-Blast

WASHINGTON, Oct. 21 (Reuters).—The United States today recorded seismic signals which presumably were from a Soviet underground nuclear explosion, the Atomic Energy Commission said. The signals, picked up at 0600 GMT, indicated an explosion in the range of 20 to 200 kilotons, the commission said.

French Liner Captain Cleared in Shipwreck

LE HAVRE, France, Oct. 21 (Reuters).—A maritime court today acquitted Capt. Raymond Kerverdo of negligence in the sinking of the French cruise liner Antilles last January in the Caribbean.

Capt. Kerverdo, 47, had been charged with negligence leading to the loss of his ship, which ran aground on a reef near the tiny island of Moustique on its way from Caracas to Barbados with 350 passengers and 300 crew aboard. There was no loss of life.

When Mercedes-Benz introduce a new model, it really is a new car.

Mercedes owners would not be satisfied with anything less.

Since April 17th, 1971, there has been on the market a sporty two seater which embodies many advances in automotive design. Such a car demands long and thorough development. To the drivers of Mercedes-Benz cars, this is the only definition of the word "new". They don't measure progress in terms of bulging sheet metals, but rather in technology, driving comfort and safety. The body styling of the 350 SL had to earn its distinction, even in the wind tunnel. It is modern, but without gimmicks. First and foremost, it is functional. Secondly, it is attractive. An order of priorities of which Mercedes owners approve.

The story continues in the engine compartment

The 3.5 litre, V8 engine produces 200 net bhp/DIN and will take the car from rest to 100 kph in 8.8 seconds. Continuous maximum speed is 210 kph. But other factors are equally important. The high torque at medium engine speeds. Two overhead camshafts to provide sporty characteristics. The quiet of a mature engine. One that is designed to have a long live, yet gives instant response. Electronic fuel injection takes care of that and also reduces the toxic gases. An engine which already meets future European exhaust emission regulations.

Suspension and brakes

The diagonal swing axle contributes towards safety and good roadholding and gives a high degree of comfort. But faster acceleration to high speeds must be matched by braking which is equally efficient. So the disc brakes on the 350 SL are ventilated on the inside.

On our roads, selfishness is not sportsmanship. The control of power is more important than power itself.

For safety, the side protection has been improved in the 350 SL. And deflector fins on the front pillars keep the side windows free from dirt. Two results of systematic safety research. Two of many.

When you test drive the 350 SL you know that it really is a new car.

Mercedes-Benz

What Progress Means to Mercedes-Benz Drivers

They were the first to ride in a passenger safety cell (1959). They were the first people to have an impact absorber under the steering wheel (1967).

They demand real progress, not bulging sheet metal. Power, rather than a sporty shape. Horsepower instead of imitation rally equipment. Service in place of promises. Long service life as opposed to short lived fashion.

They want the car of the future, now. Eight cylinder engines with exhaust emission control. The Anti Bloc System which makes it possible to brake without danger, even in corners. They take for granted the most severe crash tests and air bag experiments and the ever increasing Mercedes-Benz research budget.

They expect to find Mercedes-Benz service stations all over the world. (Already there are Mercedes dealers in 166 of the 171 countries of the world. The latest figures show 84,000 employees in 4,183 service stations.)

But Mercedes-Benz drivers are still not satisfied. Neither are Mercedes designers. And that is the way it should be. Because progress thrives on challenge.

A new car. The 350 SL

Peace and the Prize

There is a tendency for all prize judges of long establishment to select recipients whose careers are virtually finished—to provide, so to speak, an epitaph. And invoke a *nil nisi bonum* to shield against criticism. The various Nobel Prize committees have not infrequently followed this pattern—but to their credit they have also demonstrated imagination and moral courage on numerous occasions. Their work has often been viewed in a political context—prizes to Soviet authors, for example, or the awarding of the peace prize in 1935 to Carl von Ossietzky, a German pacifist whose choice aroused violent protests from the Nazis.

But it is seldom that a Nobel Prize has been granted under circumstances which make the prize itself quite such a factor in world politics as that given Chancellor Willy Brandt. The first German to win the honor since Von Ossietzky, Brandt is unquestionably an excellent choice. His resistance to Nazism, his stalwart defense of the rights of West Berliners, his role as a good European with respect to the Common Market, and his initiatives toward a genuine relaxation of the sharp tensions between East and West Europe combine to make a career for which the world is justly grateful.

But the gratitude of the world is not always an asset to the political leader of a national state. Mr. Brandt's work is far from finished; the agreements among the powers on Berlin, the accords reached by Brandt's government with Eastern Europe, form a chain with a number of weak links that might be snapped by forces beyond the chancellor's control. Not every German admires Brandt's career as the world outside admires it; not every German believes that a détente between West Germany and its Eastern neighbors is the best method of assuring German national interests. It remains to be seen whether the ovation Mr. Brandt received from the Bundestag on the announcement of the award will be reflected in the voting on the subjects for which the award was given.

It should be so reflected, to be sure. The Brandt diplomacy is an essential part of the evolution of a reasonably peaceful Europe in which West Germany can take its rightful place. Its rejection by the Bundestag would be a tragedy for Germany, Europe and the world—the Nobel Prize is a fair measure of the importance of what Mr. Brandt has attempted. And, of course, the Bundestag is not the only factor which might disrupt the chancellor's efforts: The Soviet Union (whose premier, Alexei Kosygin, has praised the award) could also wreck the accords; so could East Germany.

What the Nobel Prize has done is to raise a kind of public standard, by which the future conduct of all who are involved in the Brandt policies may be judged. It is not, hopefully, an epitaph on Willy Brandt's career, but rather a battle cry of peace.

Question Mark on Berlin

A cloud the size of a man's hand, the hand of Soviet Foreign Minister Gromyko, hangs over the new four-power accords on Berlin and the detailed annexes now being negotiated intensively by the East and West German governments. It is a cloud that could threaten the entire Eastern policy for which Chancellor Willy Brandt has just been granted the Nobel Prize.

Mr. Gromyko has indicated that, even after completion of the East-West German agreements, Moscow would like to delay signature of the final protocol and implementation of the Berlin accords until Bonn ratifies the new Soviet-West German treaty, accepting the territorial losses of World War II. The Kremlin evidently is concerned about being left holding the bag if Chancellor Brandt's new coalition majority makes it impossible for him to obtain Bundestag approval of the treaty.

But Mr. Brandt, partly for this very reason, has committed himself against even submitting the treaty to the Bundestag for the expected six-month ratification process until the Berlin accords are made final and real improvements in West Berlin's status, including unimpeded travel, become visible.

Moreover, the same condition has been set by NATO for initiating multilateral East-West preparations for the conference on European security that the Soviet Union has been urging for many years to gain general acceptance of the territorial status quo. Not unless the Berlin accords are completed and signed will the NATO ministerial meeting in December authorize those preliminary talks.

Ironically, Moscow now is emphasizing—in reverse—the link between the Berlin accords and the Soviet-West German treaty that it previously denied when Bonn insisted on it. But Moscow's suggestion now that ratification of the treaty must precede final signature of the Berlin accords or, at least, come simultaneously, is self-defeating. For Chancellor Brandt needs the proof of a six-month improvement in Berlin's status to convince the Bundestag that the concessions he made to Moscow in the Soviet-West German treaty have paid off.

Indirectly, the Soviet Union has accomplished one objective: It has made it clear that future implementation of the Berlin accords, whenever those accords go into force, is conditional on ratification of the Soviet-West German treaty. But the threat that final signature of the accords may be delayed until ratification of the treaty still hangs in the air, throwing a shadow over Chancellor Brandt's entire policy of reconciliation with the East.

THE NEW YORK TIMES.

International Opinion

Brandt's Prize

The peaceful chancellor: The awarding of the Nobel Peace Prize to Willy Brandt will no doubt delight all peace-loving people. Himself, Brandt will have sentimentally and popularly redeemed Germany's honor and its frightful past.

—From La Métropole (Brussels).

* * *

A well-deserved award. Today, the man who taught the world a lesson by kneeling at the Warsaw ghetto sees himself universally celebrated as a symbol of peace. This was the greatest revenge he could take for Germany on Adolf Hitler.

—From Vers l'Avenir (Brussels).

* * *

Politicians in central positions have better than most others the best possibility to carry out constructive peace work. Willy Brandt is a very good example. It is just now that he needs the prize—as an encouragement and a helping hand. Willy Brandt's policy has created some kind of spring thaw in European politics and we see the Nobel Prize as support to this line and the expectations tied to a continuation of this line.

—From Arbeiderbladet (Oslo).

* * *

Willy Brandt has gone a long and hard way. His work is still at the beginning. The Nobel Peace Prize is not a wreath over the building of peace still under his construction. Carl von Ossietzky, publicist and award winner in 1935, drowned with his ideas in a Nazi concentration camp—but he did not drown in history. American award-winner Martin Luther King was murdered—but he continues to live in the memory of millions of people—not only in that of the Negroes in the United States.

—From the Frankfurter Rundschau.

The Queen Visits Turkey

The queen, who begins a state visit to Turkey today, is lucky to find the prime minister, Dr. Nihat Erim, among her hosts. In recent weeks it has been a close thing whether he could survive in his delicate position. Turkey has 11 of its most important provinces under martial law. The politicians who have been undertaking reforms, particularly to stiffen the constitution, are more conscious than ever that their actions are under close supervision of the generals. Parliament would prefer reforms to proceed in a different style and at a slower pace. The armed forces would not.

—From the Guardian (London).

The Danish Surcharge Plan

Swedish exports to Denmark amount to 10 percent of total Swedish exports, and of these, 85 percent will be hit by the import surcharge. This means further difficulties for the country, right now working on emergency laws because of the serious unemployment.

Internationally the government's initiative makes sense only if it [the government] considers the current rules totally broken down. By suggesting the extra import surcharge the Krag government in fact has expressed deep mistrust in the efforts to halt the growing protectionism. As the first of the small Western countries, Denmark is preparing for international relations among the wealthy, capitalistic countries that are coming close to chaos.

—From Information (Copenhagen).

Seventy-Five Years Ago

October 22, 1896

LONDON—The celebration of the 91st anniversary of the battle of Trafalgar was quite the feature of London life yesterday, and a great pilgrimage was made from all quarters of the town to the Nelson Column in Trafalgar Square, which was magnificently decorated. This year the number of wreaths exceeds that of any previous anniversary. The day was also observed in all the naval ports of the country.

Fifty Years Ago

October 22, 1921

PARIS—Five thousand police and other city forces assigned to control the Communist meeting held last night at the Salle Wagram, to protest against the condemnation by an American court of Sacco and Vanzetti, failed to prevent the meeting from ending in riot and disorder. The crowds heard the speakers say that Sacco and Vanzetti were innocent of any crime and were victims of their attachment to the revolution.

'But He Had No Right to Be So Right!'

Us Poor Journalists

By C. L. Sulzberger

PARIS.—One of the more successful tactics employed by the Vietnamese Communist side to confuse U.S. opinion during the peace negotiations here is the simple one of saying different things to different Americans and then blandly refusing to see a contradiction in such views, much less explain them.

Thus, for example, Communist officials have at various times told U.S. journalists and U.S. politicians that Hanoi did not insist on both U.S. withdrawal from South Vietnam and renunciation of support for the Thieu regime before there could be any release of American war prisoners. These two conditions were linked in the Communist seven-point peace program produced last July.

North Vietnamese delegates have occasionally advised newspapermen and other visitors, recently including Senators Bayh and McGovern, that these points were separable. To say that this Hanoi tactic has succeeded in confusing not only American public opinion but also the unfortunate newspapermen assigned to report the facts is an understatement. Stenographic transcripts of press briefings stress this bewilderment. For example, from a briefing by U.S. spokesman Stephen Ledogar:

McGovern's Visit

Question: "Steve, when Sen. McGovern briefed the delegation after his various visits this weekend, did the delegation find that the senator's impressions as he recounted them were consistent with the declarations that the senator pronounced during his press conference of Sunday morning?

"The reason I ask is not to call anyone a liar, but we found that we had the impression that some of the senator's remarks were vague; to put it mildly, he wasn't quite sure of some of the things he was saying. Perhaps he gave you a clearer impression. . . ."

Briefing by Nguyen Thanh Le of Hanoi: Question (Edith Lenart, Far Eastern Economic Review): "We don't know where we are. . . . Now I have the impression that we all misunderstood what we were told over the last two or three months, since the presentation of the seven points."

Same briefing: Question (Jonathan Randal, Washington Post): "You have known me for almost three years; do you understand why we no longer understand anything, do you understand the confusion in our minds? Either things are clear or I am a fool, and if I am a fool I am ready to withdraw from active life. . . .

"If you want to say something off the record, go ahead, but for God's sake explain to us whether we are not able to understand anything or whether there has been a change in your delegation policy. Any delegation has the right to change its mind. Sincerely, this is not a game for us, and we are at a total loss."

Bland Reply

Spokesman's answer: "We already said that our statements are logical and consistent."

Viet Cong briefing by Ly Van Sau. Question by Randal: "The two senators who were just recently in Paris are against the war, they are serious-minded people who should at least be considered as such particularly by your side. When they came out of their meeting with you they said things that seemed to point to rather important changes.

"I cannot understand why you do nothing but repeat well-known positions. By repeating those well-known positions, you are—objectively speaking—invalidating everything that the two senators have stated. Is it your intention to make Senators McGovern and Bayh look ridiculous?"

Scott Sullivan (Baltimore Sun): "As I go over my notes for the last 10 minutes. . . . There is nothing telling us about the truthfulness of what McGovern told us. We still don't see the light, and we are confused as to whether or not Sen. McGovern actually blew out of proportion what he gathered from you."

Randal: "What we are really interested in is whether or not McGovern embroidered the story. After all he is a political leader, he seeks the U.S. presidency. Did he embroider on the substance of his discussion with you?"

Another Nguyen Thanh Le briefing (David Cohler, Westinghouse Broadcasting): "I have been here for 18 months but there is something that has always seemed strange to me. Since there have never been any restricted meetings, why are you so sure that the U.S. has not changed its policy, that is to say, without us poor journalists knowing about it?"

The "poor journalists" receive no flat replies. That would spoil the game whose name is confusion.

A Veteran Observer's View

The Court Vacanci

By Arthur Krock

WASHINGTON.—"What you want is favor, not justice," said Oliver Wendell Holmes to a labor leader at a White House dinner one night. "But when I am on my job I don't give a damn what you or Mr. Roosevelt [his host] wants." (Referring to Theodore Roosevelt, who had appointed him to the Supreme Court.)

Of course, with Holmes as well as with any other member of the court, "justice" is a relative term. On the part of the high-minded jurist, justice is what he prayerfully conceives that the Constitution requires in the resolution of a case or controversy. On the part of the not so high-minded or the politically doctrinaire, who have not been wholly absent from the court in its long history, justice very often is what it should be in a constitutional system more to his liking. In such instances, if he can recruit four others, the Constitution becomes what he says it is—though without visible warrant in the text or its plain intent. And he can find in a legislative action an "intent" of Congress that was specifically disavowed by its sponsors on the floor of both branches.

Hence, justice from a judge depends on his degree of mental and moral integrity, as well as on his legal capacity and the cold detachment which subordinates his doctrinal and political leanings to the clear letter of the law. Ideally, this equipment should be the *sine qua non* in the choice by the President of his nominees to the court, and in the considerations on which the Senate exercises its constitutional power to confirm or reject the appointment. But this test, frequently too, has been laid aside for political motives by both Presidents and senators.

Ultimate Powers

Because of two ultimate powers which the Supreme Court now freely exercises, the direction of government in act and policy is involved for years to come in the filling of vacancies, more deeply so when several of these occur in the tenure of a President, whether it be the unprecedented four terms of Franklin D. Roosevelt or the one term of Richard M. Nixon thus far.

These two ultimate powers are, first, the making of new public policy, however revolutionary, regardless of the fact that one or both of the other two coordinate Federal branches—the executive and Congress—have rejected the policy by action or inaction; and, second, in effect to legislate and amend the constitution in spite of the fact that Article V specifies in the plainest of language that amendment can be made only after certain actio by Congress and the sta

When Chief Justice E ren led the court majo exercise of these assume reached a historical rec

Jackson's Thoug

The late Justice Rob Jackson delved deeply i sources of this mystique. lowing excerpts are from his lectures published by University Press in 1955:

"...In living history [preme Court] has profou fluenced, for better or fo the course of this nation authority does it posse generates this influence answer is its power to h constitutional and judicia enforceable an act of the dent, or Congress, or of stituent state of the Fed That power is not gr granted or hinted at in ticle defining judicial pow rests on logical implicatio it is difficult to see how t visions of a 150-year-old document can have much if there is not some pen institution to translate the current commands and to their contemporary applic

Yet Jackson was a strong of "libertarian activism" c court. This aptly describe recent decisions of the federal tribunals (stemming the Supreme Court's impo able dicta on school busing latest specifying the buildi a school complex in Alaba which certain grades sha taught and not taught.

Though the above supplie a layman's glimpse of the potential consequences to American people in the m of a member of the court— so, of several—it suggests vast and unpredictable these sequences are; and why pa politicians, selfish pressure g and stubborn ideologue tensely await the President's mission of his choices. In an arena the chances that zens equally dedicated to s macy of the rule of law emerge victorious are not great.

Arthur Krock is a retired W ington correspondent of The York Times.

Yogis and Commissars

By William V. Shannon

WASHINGTON.—"The intellectual who does all his fighting from an office is counterrevolutionary today, no matter what he writes," Jean-Paul Sartre told John Gerassi, a radical American intellectual, in an interview printed in last Sunday's New York Times Magazine.

"Are you saying then that the responsibility of the intellectual is not intellectual?" Gerassi asked.

"Yes, it is in action," Sartre replied. "The intellectual who does not put his body as well as his mind on the line against the system is fundamentally supporting the system—and should be judged accordingly."

The French, being a worldly-wise people, may take Sartre a shade less seriously than Americans do. They have had, after all, a good deal more experience with barricades, rhetoric and revolutionary gestures. Yet Sartre is influential in the United States among intellectuals and the college-educated young. He is a philosopher and literary critic of considerable distinction. "Being and Nothingness" and "What Is Literature?" are important books. He has therefore to be taken seriously. Like the turgid works of Herbert Marcuse, Sartre's writings may be more talked about than carefully read, but his ideas have consequences.

The Message?

But what are we to make of Sartre's message as expounded to Gerassi? Of his idealization of the wise, honest "masses," his call to intellectuals to rush into bloody combat with police and hardhats, his praise for revolutionary terrorism, his vague indictment of "the system" and his sweeping assessments of guilt?

Sartre demonstrates once again that a man can be an eminent philosopher and a perceptive literary critic and still have no political sense. The essence of politics is specificity, limits, timing, the critical interplay between particular personalities and particular ideas and particular events.

But Sartre does not discuss any program or even an ideology. He seems to have abandoned any notion of causality. The social framework within which the intellectuals and the "masses" are supposed to act is never made clear. Instead, violence has taken the place of program, ideology, or political strategy.

Brave men and fools have been risking their lives since the beginning of time. The shedding of blood in and of itself proves nothing. The questions always have to be asked—what was this violence meant to accomplish? Was there no other way to reach the same objective?

To be washed in the blood of the lamb is a very old religious concept, but to borrow that idea from religion, where it is valid, and transpose it to politics is wholly irresponsible. The injustices of an old society cannot be washed away in a baptism blood and a new society, and fresh, then be born.

Human societies are too born for that to happen. Soviet Union more than 50 after its revolution, for exam has achieved many pos changes but it still has an a lot of Czarist Russia in it, cluding secret police, Sibe camps, persecuted Jews, strangled intellectuals screa for freedom, and millions of peasants.

An Empty Phrase

Sartre cannot escape the herent limits of political ac by romanticizing working pe It is obscurantist to write the intellectual "must now with the masses and thro them, realizing . . . that he his knowledge to them and be with them and in them."

The "masses" is as repul a phrase as "the little m There are no masses or li men. There are only pers like you and me who work, in love, are happy and are afr suffer when they are hurt, g old and die.

Letters

The International Herald Tribune welcomes letters from readers. Short letters have better chance of being published. All letters are subject to condensation for space reasons. Anonymous letters will not be considered for publication. Writers may request that their letters be signed only with initials, but preference will be given to those fully signed and bearing the writer's complete address.

Pollution Pays

Surprise, surprise! Finally Dr. Barry Commoner has come out with a discovery that has revolutionized my thinking on the subject of pollution (IHT, Oct. 14). I always thought that the automotive industry started by switching from horse carriages to horseless carriages because they did not like the smell of manure. I always thought the petroleum industry flooded the world with poison fumes because the directors were tired of shoveling coal in their heating systems at home, that the farmers use more chemicals on their land in smaller areas because it hurts their corns to walk for greater distances.

It has puzzled me why airlines are using jumbo jets with their enormous polluting factor, or why plastic in all its forms has invaded the consumer markets to such an extent. I vaguely blamed it on the consumers, who beg the big corporations to please invent something, even at tremendous cost, that will free them from boredom and give a lift to their life.

Now, thanks to your article titled "Biologist Ties Pollution to Industrial Profit System," by Stuart Auerbach quoting Dr. Commoner, I can put the blame for pollution of the world on the least imaginable motivation on the part of human beings: profit.

AVERARDO PERUZZI.
Klagenfurt, Austria.

The FBI and the Pilot

The article by George Lardner jr. entitled "A Hijacked Pilot's Pleas Are Ignored by the FBI—And the Pilot Dies" (IHT, Oct. 19) grossly slanders the position which the FBI assumed in not yielding to the hijacker. Can five suicidal notes left by an armed man in an airplane be taken lightly? The pilot specifically stated that the hijacker had about 12.5 pounds of plastic explosives aboard the aircraft. Maybe Mr. Lardner sees no apparent danger in helping a suicidal hijacker fly over populated cities with this type of killing power. The deaths of the two innocent individuals are an undisputed tragedy. If the plane had been allowed to leave the Jacksonville airport that morning, it could have meant the death of many more innocent victims.

CHARLES A. RAYMAKER.

Reagan on Thieu

To those who may have wondered if Ronald Reagan's nauseatingly stupid and hypocritical plaudits to Nguyen Van Thieu, by comparing him with George Washington for his unopposed election, may have been a mere personal departure from our chief executive's philosophy: They need only recall that after first meeting Thieu our Mr. Nixon declared him to be "one of the leading statesmen of the world."

By Jean-Baptiste Caumont

It is a great look as far as store promotion goes. It only has one drawback: It could become popular so fast that it will burn itself out in no time at all.

In the knitwear group, Missoni deserves special mention. The house started on an artisanal basis and is now doing so well it is sold out before the ready-to-wear shows open. In the last three years, Missoni has made a killing in the United States with ombré knits, then last season with patchwork knits. This season, the *house is on a different, and one* can tell, equally successful kick. Missoni has developed a new airy, gauzy plaid knit which has been made into delightful scarf dresses with pointed handkerchief hems.

Polite Rehash

The couture ready-to-wear, on the other hand, was a letdown and a polite rehash of the collections shown last July in Rome —except for André Laug, whose shows were so proper, classical, and easygoing as to be just this side of dull. The only clear message came in one word and one color—white.

The '40s were still very much around the deluxe boutique shows —but the girls, done up to kill with rouged lips, strident sweetheart-necklined dresses and, so help me, sequined platform shoes, often ended up looking as if they had stepped down from a pop poster for some Las Vegas nightclub.

The only two stars were Graziella Fontana and Jean-Baptiste Caumont. Miss Fontana's collection for Lux Sport showed, if need be, that it pays to be consistent. In the last couple of years, she has somehow managed to steer clear of all the fashion folklore and has always remained true to herself. This season, her delicately pleated plaid skirts, halter-neck sweaters and raw silk safari jackets established her as a designer to be reckoned with.

Caumont also made news with his tartan dresses and managed to flirt with the '40s but with a kind *hand and a sense of humor.*

Milena Mosele's nautical look.

Meanwhile, at his palazzo, Emilio Pucci showed his latest collection, of which the best part was beachwear—which made Pucci famous in the first place.

The little Pucci dress came later in his career; it was once the passport to chic. But it has been done to death and Pucci knows enough to leave it alone. His beachwear, however, still casts a strong spell. It suggests beautiful golden girls, sauntering away from Capri to Acapulco—looking like birds of paradise—unruffled, colorful and dreadfully expensive.

PARIS MOVIES

Most of the French Idols

By Thomas Quinn Curtiss

PARIS, Oct. 21 (IHT).—Almost all of the French screen idols may be seen at one or another of the cinemas which line the Champs-Elysées.

The doyen of the Gallic movies, Jean Gabin, still the strongest drawing card of them all, is at the Elysées-Cinema in "Le Drapeau Noir Flotte sur la Marmite," a simplistic comedy by Michel Audiard. It is a good-natured, soothing celluloid mediocrity, a far cry from those in which Gabin established his reputation —"Pépé le Moko," "La Grande Illusion" and "La Bête Humaine" —but French filmgoers still find him irresistible, and here, as a boastful old salt operating catastrophically as a freshwater sailor, he is as personally engaging as ever.

* * *

At the Ermitage across the street Louis de Funès, the most *popular of the national clowns* and second only to Gabin in box-office favor, is to be seen in "Jo." This is a free adaptation of the American farce-thriller, "The Gazebo," now given a French setting. *As usual the sly-faced fun*nyman grimaces and slithers about amusingly, here seeking desperately to conceal a corpse on the premises of his country estate as his wife entertains guests at cocktails.

* * *

A droll of melancholy visage, Rufus is being groomed as a replacement for the lamented Bourvil whom he resembles. This Rufus may be seen in "Où Est Passé Tom?" (at the Balzac), a strained yanking of "The Mark of Zorro" and "Don Quixote" into contemporary times. Rufus, like Douglas Fairbanks as Zorro, is a self-sacrificing do-gooder, intent on liberating a Latin *American land from dictatorial* oppression. He assassinates a villainous politico at a bullfight, *fights off single-handedly an* army of police, and negotiates an unlikely escape from a castle dungeon. But Rufus has not the Fairbanks flair for agile acrobatics, or the broad, winning, Fairbanks grin or in the slightest degree the romantic aspect of his silent forerunner. He is a Don Quixote miscast as d'Artagnan and, worse, his scenario is not tongue in cheek but dismally straight.

* * *

Rufus is more at ease as the drunken bartender of "Aussi Loin que l'Amour" (at the Paramount-Elysées), an oddity directed by Frederic Rossif, who is ordinarily the dispenser of animal and historic documentaries. As a director of humans, he betrays *a disconcerting uncertainty and,* though his script is ostensibly a love story, its most interesting passages have *to do with bird* life, in particular, a sequence devoted to parrots of multicolored plumage. *The narrative is so* confused that it often becomes impossible to follow. There are, however, flashes of brilliance in the editing and in the composition of many images, but these seem displayed for their own sake and in no way clear the muddled account of a birdman who meets a flighty flapper.

Jean Gabin

. . . irresistible.

* * *

"Joe Hill" (at the Vendôme in English, though a Swedish product) is Bo Widerberg's version of the life of the Scandinavian immigrant who, landing on the U.S. shores in 1902, became a firebrand in the organization of the International Workers of the World. He was executed for murder on an allegedly trumped-up charge and has been since enshrined as a martyr of the American labor movement.

Widerberg's treatment of Hill's *turbulent career* with its Renoir-like photography and wistful lyricism would be more applicable *to a biography of Mary Baker* Eddy or Lydia Pinkham. He has drawn a red-hot class-struggle *melodrama (bellowing loudly for* black-and-white newsreelism) in pastel shades and encased it in *a lilac frame. As a tonic for the* incipient sentimentality of his approach, he adds a sharp, ironic epilogue, but it is too little and too late.

68 Million Titian Likely to Remain in U.K.

tian to Getty's museum at
, Calif., for 12 months to
he National Gallery time
e enough money to acquire
inting.

Under British law, a government export license can be refused for a painting if a British offer subsequently equals or betters the auction price.

The government will provide £381,550 of public money to retrieve the painting. The gallery is paying another million *pounds from its own resources* and taking a mortgage on government grants for the next four years. The balance will be raised from public subscription—and the gallery is confident it will be successful in its fund raising campaign.

Saving the Titian has been one of the biggest rescue operations mounted for years to prevent a famous painting leaving Britain.

The artist painted "The Death of Actaeon," which measures 70 *by 78 inches, 400 years ago. Lord* Harewood—who sold it to help pay family inheritance duties—had given it on loan to the National Gallery for the last ten years.

Entertainment in New York

NEW YORK, Oct. 21 (IHT).—This is how The New York *Times critics rate the new movies:*

"Le Souffle au Cœur," directed by Louis Malle, screenplay (French with English subtitles) by Mr. Malle, "could have been made with as much distinction by any of those directors, all equally anonymous, who specialize in urban romantic comedy (or tragedy) of a sophistication that is supposed to be peculiarly French. 'Le Souffle au Cœur' is comedy, and I guess its sophistication is a bit peculiar," Roger Greenspun wrote. "Its hero is the 15-year-old son (Benoit Ferreux) of upper-middle-class parents, who is passing onto maturity and who discovers that for sexual initiation as for everything else, a *mother is a boy's best friend.* It is, I should say, a happy incest movie, with the addition of a somewhat nervous morality."

"Bunny O'Hare," directed by Gerd Oswald, starring Bette Davis, is a "gimmick comedy, unusual in the fact that to be told *its gimmick is to know the very* worst there is about the film," Vincent Canby reports. "As Bunny O'Hare, the sort of *little old* lady who wears blue sneakers and what looks to be a man's rain hat, Miss Davis plays a member of the silent majority who takes to robbing banks, disguised as a hippie, with the collaboration of a real bank robber played by Ernest Borgnine. As I said, the gimmick is dreadful. Miss Davis, however, gives a performance that may be one of the funniest and most legitimate of her career, which has been spectacular for mannerisms that overwhelmed every character she's ever played, with the notable exception of Leslie Crosbie, Regina Giddens and Margo Channing. 'Bunny O'Hare' is nonsense of a quite acceptable order."

Kandinsky Work Brings $300,000 At N.Y. Auction

NEW YORK, Oct. 21 (AP).—A 1914 painting by Russian expressionist Wassily Kandinsky set a record and, with 67 other works, helped to raise more than $2 million for the Solomon R. Guggenheim Museum last night.

The Kandinsky work, "Picture With Three Spots," was auctioned for $300,000 to an unidentified Swiss gallery at Parke-Bernet in New York. Until last night the highest price a Kandinsky had ever brought at auction was $140,000.

Another Kandinsky work, "Open Green No. 263," dated 1923, was bought by Norton Simon for $155,000. A third high price of $140,000 was paid by an unidentified Italian dealer for Kandinsky's "With White Oval No. 239."

The sale of the 68 works, most of them by Kandinsky, was to augment the Guggenheim Museum purchase fund.

Join Us In U.S. REAL ESTATE SYNDICATION Closing Now!

We are buying a completed and occupied U.S. apartment complex that gives 8% tax free annual cash yield with additional equity build-up through mortgage repayment of 10%-15% per year. Has significant guarantees. Top bank references. First class documentation and Swiss Notary registration. Need several co-investors.

Write: Box D 2,829, Herald, Paris.

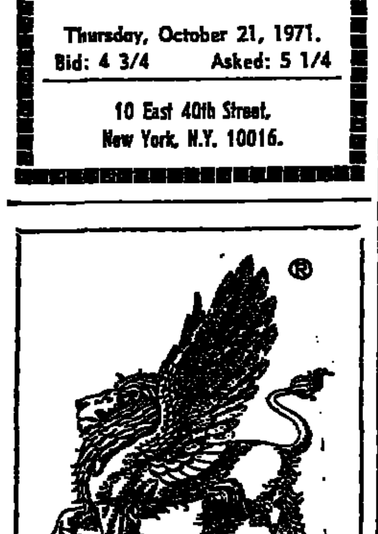

The Wolf Corporation

real estate, construction, oil and gas: a public company incorporated in 1961.

OVER THE COUNTER:

Thursday, October 21, 1971.
Bid: 4 3/4 Asked: 5 1/4

10 East 40th Street,
New York, N.Y. 10016.

DREYFUS INTERCONTINENTAL INVESTMENT FUND N.V.

OBJECTIVE:
Maximum growth of capital.

INVESTMENT POLICY:
To seek securities in markets where economic conditions appear to offer above average growth possibilities within a stable political and social environment.

MANAGEMENT:
DMI Dreyfus Management International Ltd.

Liaison Office
8 Munich 2, Marienplatz 16/III, Dpt. III

S. May Ask Japan o Curb More Exports

From Wire Dispatches

YO, Oct. 21.—Treasury ary John B. Connally sk Japan to curb exports s, television sets and desk-omputers when he visits early next month, a gov-nt official said here today. the official, Minoru Mat-a counsellor at the Minis- International Trade and ry (MITI), denied Japa-ress reports that the United had already made a re- for export reductions. nwhile another MITI offi-ged Japanese auto makers untarily control their ex- to the United States. appeal came from Naohisa rn, chief of MITI's auto- division, in a meeting with rs of the Japan Auto- Manufacturers Associa-

Ishihara said that the States is showing irrita- over the sharp increase in experts of certain Japanese goods, including automobiles. He said that by controlling exports of automobiles to the United States Japan could expect to keep the upward valuation of the yen as small as possible.

Although Mr. Ishihara did not use the word "self-restraint," industry leaders took his words to be a formal government request for voluntary curbs.

Katsuji Kawamata, president of the association, said the industry would never comply with the request.

Nihon Keizai, a leading financial daily, reported that Foreign Minister Takeo Fukuda, Trade Minister Kakuei Tanaka, and Finance Minister Mikio Mizuta were studying a plan to levy an export surcharge on goods whose export to the United States showed sharp increases.

The paper also said David Kennedy, U.S. ambassador-at-large, who visited Japan last week to sign a government-level agreement limiting Japanese textile exports, told Mr. Tanaka the United States might impose import quotas on Japanese cars and other goods on Nov. 13, when President Nixon's wage-price freeze expires.

Sankei Shimbun, another economic daily, reported that the United States would ask Japan for a yen revaluation of 20 percent or more, unless it agreed to curb certain exports.

In another development, Finance Minister Mizuta told the Diet (parliament) today that the yen will have to continue floating "for a considerable period" because the Group of Ten is still sharply divided over a solution to the international monetary crisis.

Chief cabinet secretary Noboru Takeshita said Mr. Connally's visit will be the first step toward bilateral negotiations for currency adjustments.

Such bilateral talks will be necessary before final adjustments, which will be on a multilateral basis, can be concluded, he added.

K. Jobless te Steady

IDON, Oct. 21 (UPI).—The of unemployed workers in n rose slightly to 929,687 s this month, the highest out 30 years, official figures d today.

jobless represented 3.9 per-*of the total labor force, un-*ed from the previous month. rear ago the ratio was 2.6 nt.

mid-October total was only ersons higher than in mid-mber because of a sharp fall 44 in the number of un-yed in Northern Ireland *the month. In Britain* and excluding Northern id, there was a rise of 3,279 al unemployed in the month. total of job vacancies was 0, a drop of 9,925 from the us month.

e government is engaged in with the Confederation of h Industry (CBI) about the ness of the job situation. CBI has urged the govern- to order a swift and big rise ending by local government orities and the state-owned tries over the next few hs to cut the unemployment

France May Be Forced To Hit Back at U.S.

PARIS, Oct. 21 (AP-DJ).—The Production and Trade Commission of the French National Assembly said today that France may have to take retaliatory measures against the United States if members of the European Economic Community fail to agree on a joint stand on problems arising from President Nixon's Aug. 15 measures.

In the absence of such a joint stand it may be necessary for France "to adopt retaliatory measures through customs mechanisms (barriers) in order to stave off repercussions from monetary and commercial disorders," the commission said.

FINANCIAL NEWS AND NOTES

Ford, Toyo Kogyo Suspend Talks

Negotiations concerning Ford Motor's plan to purchase a minority interest in Toyo Kogyo of Japan have been temporarily suspended, and an agreement will not be signed this year, Kohei Matsuda, president of Toyo Kogyo, has announced. He said the suspension resulted from complications arising from the international currency crisis and dollar defense measures taken by the United States. He did not elaborate. Mr. Matsuda indicated that an agreement is still expected to be reached eventually, but he gave no indication of how soon that might be.

U.S. Grants Export Licenses

The U.S. Commerce Department has approved export licenses totaling $280 million for foundry equipment for the proposed Kama River truck factory in the Soviet Union. Officials said that while foundry equipment export licenses now total about $442 million, the Soviet Union's purchases of such equipment in the United States perhaps will amount to little more than 10 percent of that total. Approval of the licenses, in effect, allows manufacturers to seek contracts to supply this equipment, with assurances that if contracts are completed the items can be exported.

Japanese Computer Firms Link Up

Hitachi and Fujitsu, the top-ranking Japanese computer makers, have signed an agreement to coordinate their operations. This is the first development in the long-expected reorganization of the computer industry, and it is expected to be followed by similar tie-ups between other computer manufacturers. Hitachi and Fujitsu's agreement provides for joint development, production and sales of all new computers. Hitachi said the first project will be the joint development of a large-scale, general purpose computer somewhat comparable to IBM's 360-155 or 360-160 models.

Thyssen to Cut Its Dividend

August Thyssen-Huette of West Germany says its dividend for the business year ended Sept.30 will be markedly lower than the 14 percent paid last year. In a letter to shareholders, the company blamed rising costs and falling revenues for a sharp fall in profits. It gave no specific figures. Thyssen added that earnings prospects in the current business year are clouded by major uncertainties, and real improvement will only be possible once the pressures of rising costs and the current monetary crisis have been set aside.

Lockheed Profit Up 10%

Esso Net Rises 21%; Sales Gain 12%

NEW YORK, Oct. 21 (IHT).—Standard Oil Co. of New Jersey reported today a 21 percent increase in nine-month profits from the year-ago level on a 12 percent gain in revenue.

Net income totaled $1.083 billion, or $4.83 a share, on sales of $15.34 billion. This compares with $894 million, or $4.04 a share earned last year on sales of $13.7 billion.

Compared to figures reported for the previous quarters, indicated earnings for the third quarter totaled $357 million, a gain of 14 percent from the year earlier's indicated net of $313 million.

Indicated revenue in the third quarter was $5.12 billion, a gain of 8.9 percent from the indicated $4.7 billion in the year-ago period.

Mr. Haughton said sales for all of 1971 were expected to be close to $3 billion, although a major percentage of that would be booked at no profit because of the company's settlement with the government on the C-5A military jetliner and the Cheyenne helicopter. He said 1972 sales should return to the 1970 level of just over $2.5 billion.

He said that earnings for all of 1971 should be about $1.5 million.

[The U.K. consortium Air Holdings Ltd., which had contracted to buy 50 Lockheed TriStar airbuses and then cut its order to 29, has backed out of the deal, Mr. Haughton told the meeting, Reuters reported.

[Orders for the airbus have dropped from 178 to 149 because of the decision, he said. Air Holdings backed out because Lockheed could not meet its delivery schedule.]

Profits for the first nine months, including $3.8 million, or 33 cents a share, from the sale of real property last January, were up 31 percent from a year ago. Nine-month sales rose 34.2 percent.

Lockheed

VAN NUYS, Calif., Oct. 21 (NYT).—Lockheed Aircraft Corp. still faces "a rough and in some respects, an uncertain road," Daniel J. Haughton, chairman, told the annual meeting here yesterday, but "we are now on an upward track."

For the quarter ended Sept. 30 net income was up 10 percent compared with the 1970 period. Sales climbed 18 percent from the year before.

Schiller Asks Parity Talks

BONN, Oct. 21. (Reuters).—The time for international monetary "poker" is over and the time to discuss revaluation figures has come, Economics Minister Karl Schiller said today.

The longer a sensible international parity realignment is delayed, the greater the danger of countries erecting trade barriers and controls, he said in a parliamentary debate on the 1972 budget.

He called on Germany's European partners and on the United States to ensure that realignment is reached as soon as possible.

He warned the United States that the longer realignment is delayed, the greater the likelihood that the extent of revaluation of other currencies against the dollar will be insignificantly small.

If the Group of Ten should fail to reach agreement on major currency realignment, the Common Market countries still have the option of fixing "pivotal rates" to determine currency relationships inside the community, while maintaining a flexible relationship with the outside world, Mr. Schiller said.

But he warned this could only be a temporary solution. Europe cannot itself determine the pattern of world trade and currencies, he said, noting that half of the foreign trade of the separate EEC countries takes place within the Common Market.

Plessey Profits Decline 27% In First Quarter

LONDON, Oct. 21 (AP-DJ).—Plessey Co.'s net profit slumped 27 percent in the first quarter ended Sept. 30 compared with the same quarter a year ago, although sales increased 3.5 percent, the company reported today.

Profit was £2.04 million, or 1.1 pence a share, down from £2.8 million, or 1.5 pence a share, a year ago.

Sales rose to £61.5 million from last year's £59.4 million.

Plessey said the results are broadly in line with its expectations. The low profit level reflects unusually weak trading conditions and margins in July and August.

This development, it said, accentuated the normal pattern of lower than average profits in the first quarter of its financial year.

JAS. H. OLIPHANT & Co.

Members of the New York Stock Exchange, specializing in providing institutional research to major United States and foreign institutions with ten well-known analysts, is seeking two dynamic sales coordinators to help service a select number of major European clients from their office in Lausanne, Switzerland.

Fluency in the English language, the ability to interpret and present to clients the results of the firm's research efforts and Swiss citizenship or work permit are required.

A high guaranteed salary plus an incentive program is offered for qualified individuals.

All resumés submitted will be held in strict confidence and have to be sent to:

Mr. G. W. Sessa, General Partner, 10 Place de la Gare, 1003 Lausanne, Switzerland, Telephone: 20 53 11.

Late Buying Helps Prices On Big Board

Bargain-Hunting Cuts Dow Decline to 0.80

By Vartanig G. Vartan

NEW YORK, Oct. 21 (NYT).—Prices steadied on the New York Stock Exchange late today as selling pressure eased and certain groups—notably the glamour and airline issues—moved higher.

The Dow Jones industrial average, down by more than 4 1.2 points at mid-season, recovered to close at 854.95 with a razor-thin decline of 0.80 point.

It was a breathing spell that investors, big and small, could welcome. The Dow had plunged nearly 38 points during the six previous sessions in a slump that wiped out the entire gain of the "Nixon rally" started on Aug. 16.

Some observers thought today's late recovery was essentially a technical bounce, coming after the protracted decline.

Illustrating this bounce was Natomas, a wide-swinging stock that rose 5 to 61 on the active list, following its slump yesterday of 9 7/8.

Disappointing earnings continued to jar certain issues. Amerada Hess, the biggest point loser on the active roster, fell 4 7/8 to 44 in the wake of lower quarterly net income.

International Telephone & Telegraph, down 1 to 51 3/8, ranked as the volume leader.

Scott Paper, also actively traded, gained 1 to 16 3/4, after plunging 2 1/8 and reaching a yearly low yesterday. Earlier this week, Scott sliced its dividend in half.

Glamour Gainers

Certain glamour stocks benefited from short covering by traders, some of whom evidently elected to take profits resulting from price declines.

Glamours included these gains: Bausch & Lomb, up 3 3/4; Polaroid, up 2 7/8; Texas Instruments, up 2 3/8; Avon Products, up 2 5/8, and Walt Disney Productions, up 2 7/8.

Eli Lilly recovered 1 7/8 to 103 1/4. In the three previous sessions this week, it had dropped a total of 13 1/2 after showing lower earnings.

The Great Atlantic & Pacific Tea Company, one of the lows, reported poorer profits some time ago. Today, it sank 1 1/4 to 19 3/4.

American Stock Exchange prices were mixed, with the exchange index rising, but declines outnumbering advances.

Citibank's Prime Rate Set on Floating Basis

NEW YORK, Oct. 21 (IHT).—First National City Bank said today it will adopt a new method for computing its prime rate which, in effect, will allow it to fluctuate with existing money market rates.

Chairman of the executive committee Edward L. Palmer told a press conference that the bank's new base rate will be set at 0.5 percent above the 90-day rate for prime commercial paper.

"The new base rate concept should respond more quickly to changes in the demand and supply of credit as determined by competitive market forces," he said.

The rate, which is the minimum charge on loans to the biggest companies, is the base from which other commercial loan charges are scaled up.

Later, New York's second-largest bank, Irving Trust Co., said it too would allow the prime rate to float at 0.5 percent above the 90-day rate for prime commercial paper.

Yesterday, Citibank's major competitors, including Bank of America and Chase Manhattan, lowered their fixed prime rate to 5 3/4 from 6 percent.

Mr. Palmer said that on Oct. 25, the base rate at Citibank will be 5 3/4 percent. But he said the rate will be reviewed each week and adjusted according to market conditions.

"Among these are the breadth and the sensitivity of the market in which this paper is sold and the fact that . . . there are no large single factors which could alone influence the market."

Bankers have two major objections to the prime-rate concept—that it is far too inflexible for the fast-moving money markets of the 1970s, and that it is far too inviting a target for politicians interested in trying to preserve a façade of low interest rates.

Today, with standby controls over interest rates looming just over the horizon in Phase 2 of the administration's new economic policy, both these arguments have special force.

In answer to a question, Mr. Palmer denied that the move was intended to evade the possibility of interest rate controls during Phase 2. He emphasized that the bank would retain a degree of flexibility in both determining the rate base and on fixing the spread. For example, he noted that in times of extremely tight credit, the spread could go to more than 50 basis points.

The major banks, with a single, highly visible lending rate, to which the vast bulk of their charges on business loans have been geared, are highly vulnerable to political pressure from Washington. Yet because of the manner in which business lending has developed in recent years, it is also very necessary as an administrative device.

Large, "syndicated" loans, in which many big banks participate in lending to a single major corporation are the rule rather than the exception these days, particularly in the case of so-called "term" loans, those with an original maturity of more than one year.

For competitive reasons, bankers have maintained, the interest rate on such large, multi-bank credits has to be uniform among all the banks in the lending group. The prime rate provides a device for accomplishing this.

However, it remains to be seen how this will operate if the entire industry does not swing over to the floating rate or if different banks use different bases for calculating this key lending rate.

A spokesman for Chase Manhattan said the "move on the prime rate represents an interesting concept and one that deserves further study."

In San Francisco, the floating rate was termed "interesting" by A.W. Clausen, president of the Bank of America.

Personal Income In U.S. Gains .4%

WASHINGTON, Oct. 21 (AP-DJ).—Personal income in the United States rose to a seasonally adjusted annual rate of $871 billion from a downward revised $867.6 billion in August, the Commerce Department said today.

The September increase of $3.25 billion was less than August's increase of $8.5 billion.

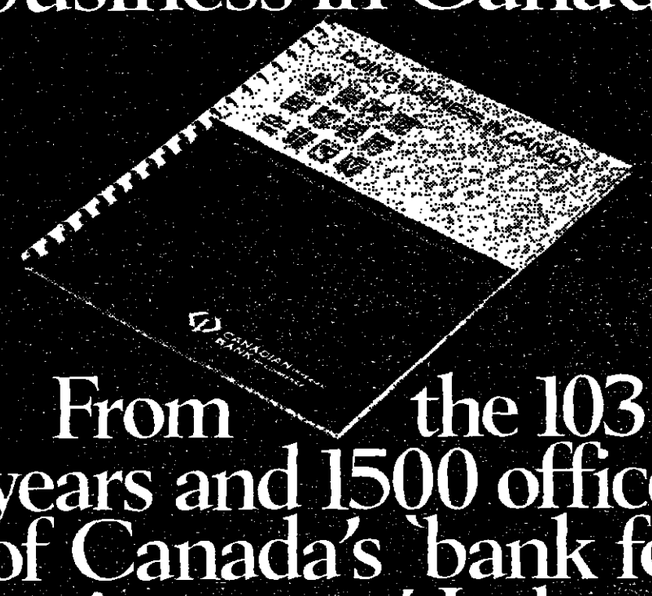

The department said the slower September expansion was due to wage and salary disbursements, which showed no change following a $6 billion increase in August.

Total personal income over the first nine months this year averaged $351.5 billion, up $52 billion, or 6.52 percent from a year ago.

Eurodollar Borrowings

WASHINGTON, Oct. 21 (Reuters).—Eurodollar borrowings by U.S. banks from their foreign branches rose $520 million in the week ended Oct. 13 to $2.736 billion, the Federal Reserve reported yesterday.

Canadian-guide.
55 pages about business in Canada.

From the 103 years and 1500 offices of Canada's bank for businessmen. It should be on your desk.

Different country, different laws, different business attitudes. The long experience of someone who lives there could be helpful. So—this 55-page business guide factbook from the Commerce.

It's prepared by our businessmen-bankers, to give precise answers to the questions we've been asked by clients like you. Specific questions about taxes, incorporation, labour laws, international agreements, dozens of subjects. Each answer determined from the information of 103 years' experience—and experience as up-to-date as today, from our 1500-office, coast-to-coast network.

"Doing Business in Canada" is the first step in our comprehensive, continuous business information service, for clients of all sizes in every area of activity. An essential first step in any proposed Canadian operation: Canada, where the future lies. We know its business, its businessmen. And we'll introduce you. Properly. Write now, on your letterhead, for your free copy of "Doing Business in Canada". The Commerce factbook that should be on your desk.

For Banks and Financial Institutions we maintain NET TRADING MARKETS in all Swiss and American O-T-C Stocks
BANK WIDEMANN & CO. LTD.
8023 ZURICH SWITZERLAND
Tel: (01) 27 06 90
Telex: 55432

7.18% is only part of the story.

We pay 7.18% interest on demand deposits. And even higher rates on fixed term deposits.

But that's just the beginning.

We also offer completely confidential accounts, with no reports to any government. Accounts in any currency. A full range of banking services. And, maybe most important, the security of a solid, experienced bank in a stable, tax-free country.

Send the coupon for details.

z—Sales in full.

Unless otherwise noted, rates of dividends in the foregoing table are annual disbursements based on the last quarterly or semi-annual declaration. Special or extra dividends or payments not designated as regular are identified in the following footnotes.

a—Also extra or extras. b—Annual rate plus stock dividend. c—Liquidating dividend. d—Declared or paid in 1971 plus stock dividend. e—Paid last year. f—Paid in stock during 1971, estimated cash value on ex-dividend or ex-distribution date. g—Declared or paid so far this year. h—Declared or paid after stock dividend or split up. k—Declared or paid this year, an accumulative issue with dividends in arrears. n—New issue. p—Paid this year, dividend omitted, deferred or no action taken at last dividend meeting. r—Declared or paid in 1970 plus stock dividend. t—Paid in stock during 1970, estimated cash value on ex-dividend or ex-distribution date. cld—Called. x—Exdividend. y—Ex dividend and sales in full. x-dis—Ex distribution. xr—Ex rights. xw—Without warrants. ww—With warrants. wd—When distributed. wi—When issued. nd—Next day delivery.

vi—In bankruptcy or receivership or being reorganized under the Bankruptcy Act, or securities assumed by such companies. fn—Foreign issue subject to interest equalization tax.

Year's high and low range does not include changes in latest day's trading.

Where a split or stock dividend amounting to 25 per cent or more has been paid the year's high-low range and dividend are shown for the new stock only.

BRIDGE

By Alan Truscott

An important part of the game is sizing up your opponents. For instance, when considering a penalty double, consider the declarer's ability to get the most out of the dummy. Remember that the double will warn him to expect bad distribution.

On the diagramed deal West should have taken into account that he was pitted against one of the world's greatest players.

South was William Rosen of Chicago, who was world champion in 1954 at the age of 25, the youngest player ever to win that title.

For North-South six hearts is an excellent contract, and so is six diamonds. With only 27 high-card points it is not easy to reach slam, but this partnership solved the problem.

North's bid of three clubs followed by a belated jump in hearts showed modest slam prospects, and South continued with a cue-bid in spades in spite of his lack of aces. When North made another cue-bid, South bid the slam.

Note that South did not use Blackwood, which is inappropriate when holding a void suit. A five-heart response, showing two aces, would have left him in a fog of uncertainty.

West doubled—on the erroneous assumption that his strong trump holding and spade ace would suffice to defeat the slam—and in so doing gave Rosen a clue to the winning play. He ruffed the opening lead of the spade ace and led the heart jack, thinking that West must have strong trumps. The jack lead was fractionally better than a low trump because of the faint possibility that East held a singleton ten.

The heart jack was covered by the queen and won by dummy's ace. The diamond ace was cashed and the closed hand was entered with a club lead to the king. A string of diamonds followed, and West found that he could make one trump—any time he pleased.

BOOKS

JAPAN'S IMPERIAL CONSPIRACY

By David Bergamini. Morrow. 1,239 pp. $14.95.

Reviewed by Thomas Lask

THE THESIS of "Japan's Imperial Conspiracy" is startlingly simple: that Hirohito was until 1945 the ruler of Japan. It would seem that it needs no 1,239 densely written pages to prove that fact at this late date. But there are implications to be drawn, says the author, that are not so simple. Among them is that the emperor had a guiding hand and was a participatory presence in Japanese foreign policy from the seizure of Manchuria, the war with China and the terrible rape of Nanking to the invasion of the East Indies and the attack on Pearl Harbor. At every step Hirohito was in on the planning and the decision-making and knowingly gave orders to implement them.

The reason Bergamini's view is important, besides raising again the problem of the war crime trials, is that it reverses the general idea of the emperor, one which he helped promulgate. In that view, Hirohito was essentially a symbolic being, a kind of incarnation of the Japanese people, but who was above the day-by-day handling of the routines of government. Much was done in his name that he never knew about and even if he had known he was powerless to do anything about it. He was, that argument runs, a ceremonial mannequin in the hands of big business, crafty warmongers and superpatriots. He has been credited with bringing an end to the war over the opposition of those who still wanted it to continue. Superficially the last statement is true. He did halt the war and over the protests of those who would not accept defeat. But it isn't true that that was Hirohito's first foray into decision-making or that he knew nothing of what was going on in his country and in his court.

He was not a political innocent. According to the voluminous evidence in this volume, he had detailed information at all times and had subtle means, including the use of violence, of making his views prevail. Rather than being a prisoner of his ministers, his ministers were subject to him. The many changes of government in the decade preceding Pearl Harbor were not signs of instability or upheaval. On the contrary, these men were maneuvered in and out of cabinets by one who knew what he wanted and got it.

Although in theory Hirohito only approved what was suggested to him, in fact he had ways of making sure that what was suggested to him was what he wanted in the first place. There was a group at court, the Strike North faction, who wanted war with Russia. Hirohito did not. He wanted Japan to move south toward Malaysia and the East Indies and Japan did. He knew about the plans for Pearl Harbor before the chiefs of staff. He knew about the atrocities in Nanking and the Philippines and did nothing about them.

Hirohito was no brake on imperial adventures or ambitions. A number of army and navy men were far more clear-eyed than he and knew that what they were starting could only end disastrously for them. It's worth noting that Hirohito was surprised and dismayed when his peace feelers in the first half of 19[illegible] brought no response from the Americans.

Everything was done in his name (the author remarks that Japan was a country obsessed with loyalty). But very little was done for the common man. He had no interest in domestic concerns. And when the conditions of a large number of Japanese were pointed out to him, he remarked that the plight of the poor was moral rather than economic. The man in the street had no hand in the decisions for which he would lay down his life. There was some opposition. When it came from high-ranking courtiers such as Prince Saionji Kinmochi ways were found to cordon it off and blunt it. When it came from lesser men, it could be stifled by murder. The debates within court circles were differences of direction, not purpose.

If the author is right, and he has provided tons of evidence, then Hirohito should have been charged as the first of the war criminals. Some believed he was. Australia wanted him tried and so did a number of individuals. The Japanese of course would have been appalled. It is interesting that the accused men never tried to shuck off responsibility by saying that they were merely following orders—a common enough ploy in Germany. The people of Japan were puzzled by the war crimes and death sentences. They didn't deny the facts. They denied that they were crimes. Everything had been done for the nation.

Through the efforts of General Douglas MacArthur and of men like Joseph C. Grew, former ambassador to Japan, Hirohito was never put in the dock. MacArthur felt he could better reconstitute Japan through and with the help of the emperor. Judging from Japan's postwar history and prosperity, he may have been right. Whether exposing and doing away with the whole imperial structure without taking any lives, would not in the long run have been better is an argument historians and maybe the Japanese will be debating in the future.

Bergamini, a journalist, who spent his adolescence in a Japanese prison camp, has collected a vast amount of information, some of it made public for the first time. But in his reluctance to skip any detail he has almost overloaded his book. The weight of material impedes the reader. Sometimes the intent of the author—to show the responsibility of Hirohito—is lost in the landslide of detail. The book is full of quasi-fictional touches that could well have been deleted. A greater criticism is that history is reduced to pure personality, to heroes and villains. In his book, no impersonal forces are to be found, no prevailing psychologies, no wave of events. Nevertheless he builds up a overwhelming case, one that scholars will mine for years.

Mr. Lask is a New York Times book reviewer.

anadiens 4, Seals 2

Mahovlich scored two and younger brother Pete one to lead Montreal to a 4-2 victory over California. The Canadiens, now 2-1-2, were ahead 3-0 after two periods on the Mahovlich brothers' goals.

Frank scored at 1:51 of the first period and again at 1:40 of the second period while the Seals were short handed. Pete scored at 15:25 of the middle session when California had a one-man advantage.

Bruins 4, Red Wings 3

Defenseman Bobby Orr scored one goal and assisted on two others in the first ten minutes to spark Boston to a 4-3 victory over Detroit. A second-period goal by Eddie Westfall gave the Bruins their final margin as the Wings, behind the goaltending of Al Smith, fought back from the early three-goal deficit.

Penguins 8, Kings 1

Pittsburgh slammed home three goals within a seven-minute stretch in the first period and added four more in the final period to crush Los Angeles, 8-1, and extend its winning streak to four games.

Sabres 7, Maple Leafs 2

Right-winger Eddie Shack scored two goals and newly-appointed captain Gerry Meehan added a goal and two assists to lead Buffalo to a 7-2 victory over Toronto. Meehan, who once played for the Maple Leafs, was made captain by coach Punch Imlach when Floyd Smith resigned the post after the Sabres' last game.

SOFT HAT—Bears defensive back Ron Smith gives away height, weight and head protection as he scrimmages against linebacker Dick Butkus. Smith says he prefers floppy hat to helmet to keep sun out of his eyes.

Lions' Owner Believes Some Teams May Fold

DETROIT, Oct. 21 (AP).—The owner of the Detroit Lions believes some National Football League teams may go under financially, leading to a reduction—rather than an expansion—of the number of clubs operating.

The Lions' owner—William Clay Ford—made his comment last night at a meeting of the Detroit chapter of Sigma Delta Chi, professional journalistic society.

Asked when he foresaw an expansion of the league from its present 26 clubs to perhaps 32, Ford replied:

"I am of the opinion that there might be contraction before there will be expansion. I don't know that we're on that solid ground. A lot of these franchises are—I won't say they're shoestring operations—but there's a very thin line between profit and loss in their operations."

Ford said that there was uncertainty among pro football owners about the effect of the price-wage freeze.

"If player salaries increase, if tickets get frozen, profit margins of certain cities that I know of ——are going to be wiped out. And I really don't know how long those guys can hang in there. I don't know how tough some of them are."

The Lions' owner did not identify the teams he had in mind.

Ford dubbed the thought of expanding the number of clubs to 32 as "utopia."

"I'd like to make sure if we do go that way that we go with 32 teams that are solidly backed . . . They're going to have to go the tough sledding route . . . We've got some weak sisters now in the 26 teams that we've got and I want to make sure we're on solid ground before we go ahead with expansion."

Ford acknowledged that his views on the subject differed from those of league commissioner Pete Rozelle, but he added "there may well be a contraction before there'll be an expansion—so I see the 'double 16' as quite a long way off."

Sample Charged

From Wire Dispatches

PHILADELPHIA, Oct. 21.—federal grand jury has returned an 11-count indictment against former professional football player Johnny Sample, charging him with cashing $8,666 in stolen checks in April.

Sample, 34, was charged with possession of $7,000 in U.S. Treasury checks which authorities said had been stolen in the mail and a stolen commercial check for $1,666.

An assistant U.S. attorney said Sample, who played with the Redskins, Baltimore Colts and New York Jets, was accused of cashing the stolen checks with forged signatures.

Ski Dispute Is Set Afire By Brundage

French Threaten To Leave Olympics

GRENOBLE, Oct. 21 (UPI).—Jean Béranger, France's Olympic Alpine ski team manager, said today his whole squad would drop out of the Winter Olympics if a single member was banned for not being an "amateur."

Béranger's stand over the amateur status rule came in the wake of the newest flare-up between Avery Brundage, 83-year-old head of the International Olympic Committee, and the International Ski Federation.

Brundage has again written to the FIS making it clear any skier who does not conform to the IOC's strict rules governing amateur status will not be allowed to take part in the games in February at Sapporo, Japan, FIS sources said.

The letter dashed hopes of a compromise between the two bodies over the question of professionalism in skiing.

"Either they take everybody or nobody at all," Béranger said in an interview with L'Equipe, the *French sports newspaper.* He added that he hoped other skiing nations would join his stand.

"But I am worried because I fear some federations will be ready to send their reserve teams for the sake of appearances," said Béranger.

Marc Hodler, the FIS president, said its members would be consulted before a reply is given to Brundage's letter.

Béranger said there was now much uncertainty and confusion among skiers about what the outcome of the latest clash would be.

The FIS last summer passed rules at its meeting in Yugoslavia cutting down on the amount of publicity skiers could give ! an effort to find a compromise solution with the IOC, which has maintained, among other things, that the pay skiers get from advertising classes them as professionals.

Brundage's letter, written from the Mediterranean Games at Izmir, Turkey, ten days ago, was a concrete sign there was still trouble ahead for the Winter Olympics.

FIS sources said the problems created for the Japanese organizers will now depend upon just how strictly Brundage and the IOC intend to enforce the amateur status rules and whether national ski federations will agree to the possible banning of some of their members without pulling out completely, as already threatened by Béranger.

Clemente Bats for City for Youth

By Murray Chass

'You go to a sports city and have people like Mays and Mantle and Williams and kids would never forget it.'

NEW YORK, Oct. 21 (NYT).—*Now that Roberto Clemente's* hitting and fielding have helped Pittsburgh win the World Series, they could help the Pirate star realize "the biggest ambition in my life."

If, however, Clemente fulfills that ambition—construction of a "sports city" for children in Puerto Rico—soon enough, it could hasten his retirement from baseball.

"If I get the money to start this, if they tell me they'll give us the money this year and I have to be there, I'll quit right now," Clemente said yesterday *after receiving a Dodge Charger* from Sport Magazine for being the outstanding player in the Series.

Before he actually quits, the Puerto Rican, 37, wants to reach 3,000 hits—he needs 118—but he's as interested in his dream for a sports city as he ever has been in playing baseball.

The dream has emerged from his many years of work with children in Puerto Rico and his concern for keeping them out of trouble and in close relationship with their families. ("One of the biggest problems we have today," he said, "is the father doesn't have time for the kids and they lose control over the children.")

Money Player

Working with a group of men in New York and San Juan, Clemente would like to obtain about $2.5 million in federal funds for the project, and it's possible that the right fielder's performance in the Series—some dazzling defensive plays along with a .414 batting average—could have some effect in loosening the purse strings.

"This World Series is the greatest thing that ever happened to me in baseball," said Clemente, who has been a Pirate for 17 years. "Mentally, it has done for me more than anything before. It gives me a chance to talk to writers more than before. I don't want anything for myself, but through me I can help lots of people."

The people Clemente wants to help first are the kids.

"They spend millions of dollars for dope control in Puerto Rico," he said, surrounded in a dimly-lighted booth in a restaurant, "but they attack the problem after the problem is there. Why don't they attack it before it starts? You try to get kids so they don't become dope addicts, and it would help to get them interested in sports and give them somewhere to learn to play them."

Clemente's idea is to build a place where children of all classes could stay for a period of time and learn and practice all kinds of sports.

Off the Streets

"I want to have three baseball fields, a swimming pool, basketball, tennis, a lake where fathers and sons can get together, all kinds of recreational sports," he explained.

"It's not enough to go to a summer camp and have one or two instructors for a little time and then you go home and forget everything. You go to a sports city and have people like Mays and Mantle and Williams and kids would never forget it.

"I feel the United States should have something like this all over. If I was the President of the United States, I would build a sports city and take in kids of all ways of life. What we want to do is exchange kids with every city in the United States and show all the kids how to live and play with other kids."

For the last 13 years, Clemente has been trying to accomplish similar goals with his own personal project.

"I've been going out to different towns, different neighborhoods," said the father of three sons. "I get kids together and talk about the importance of sports, the importance of being a good citizen, the importance of respecting their mother and father. I like to get together with the fathers and sons and talk to them. Then we go to the ballfield and I show them some techniques of playing baseball."

That kind of instruction the kids aren't likely to forget.

Angels Fire Walsh as General Manager

From Wire Dispatches

ANAHEIM, Calif., Oct. 21.—The California Angels fired general manager Dick Walsh last night and said "exploratory talks" have taken place with Harry Dalton, director of player personnel for the Baltimore Orioles, as a possible replacement.

Angel board chairman Gene Autry and club president Bob Reynolds said in a joint statement that Walsh will not be retained next season but that his seven-year contract will be honored in full. Walsh has four years remaining on the contract.

Walsh's firing follows the Oct. 7 dismissal of manager Lefty Phillips. The Angels, highly rated before the 1971 season, finished with a 76-86 won-lost record—and finished fourth in the West Division of the American League. The two previous years they finished third.

The season was punctuated by spats with Alex Johnson, former batting champ, who subsequently was suspended from the team and after the season was traded to Cleveland.

Walsh accused Johnson of fabricating, or having hallucinations, when the controversial player complained that teammate Chico Ruiz brandished a gun in the locker room. It later developed that Walsh was not totally candid about the issue. An arbitration panel recently ruled that the Angels must pay Johnson's full 1971 salary despite his long suspension.

There was considerable dissension on the club, and 20-game-winning pitcher Andy Messersmith was quoted as saying he wanted to be traded if Walsh stayed. Shortstop Jim Fregosi complained that Walsh did not give enough support to Phillips in his handling of Johnson.

Expos Buy Ron Taylor

MONTREAL, Oct. 21 (UPI).—The Montreal Expos have purchased the contract of relief pitching specialist Ron Taylor from the New York Mets, Expos general manager Jim Fanning announced today.

Taylor, 33, had been with the Mets since 1967. In five seasons, he made 269 appearances, more than any other pitcher in the history of the New York club. He made 45 relief appearance during the 1971 season, and had a 2-2 won-lost record.

The Scoreboard

SOCCER—At Marseilles, European Champions Cup holders Ajax of Amsterdam came from behind to defeat Olympic Marseilles, 2-1, in a second-round match.

In other second-round first-leg European Cup of Champions matches:

At Valencia Spain, Ujpest of Budapest beat Valencia, 1-0.

At Zurich, Arsenal of England defeated Grasshoppers, 2-0.

At Moscow, the Central Army Sports Club defeated Standard Liege of Belgium, 1-0.

At Moenchengladbach, Germany, Borussia Moenchengladbach beat Internazionale of Milan, 7-1.

In European Cup of Cup matches:

At Glasgow, the Glasgow Rangers defeated Sporting Lisbon of Portugal, 3-2.

At Nantes, France, Nantes and Tottenham of Britain played to a 0-0 tie.

At Antwerp, Belgium, Dynamo of East Berlin defeated Beerschot of Belgium, 3-1.

At Union, N.J., Elizabeth of the German-American League trailed Kokkola of Finland, 2-1, at halftime and then roared back with four second-half goals to score a 5-2 upset victory. The game ended a North American tour for Kokkola in which they won five matches before losing to Elizabeth.

Orantes Upsets Drysdale in Spain To Gain Semis

BARCELONA, Oct. 21 (AP).—Spain's Manuel Orantes upset South African Cliff Drysdale, 6-4, 6-3, today in the Spanish Open tennis tournament.

Orantes now meets Ken Rosewall in the quarterfinals. The Australian today defeated Spain's Juan Gisbert, 6-4, 6-4.

Goven Tops Hewitt

BILLINGHAM, England, Oct. 21 (UPI).—Georges Goven of France today eliminated top-seeded Bob Hewitt of South Africa, 6-4, 6-4, to reach the semifinals of the Dewar Cup indoor tennis tournament.

Jaime Fillol of Chile advanced by beating Frenchman Pierre Barthes, 1-6, 7-6, 6-2.

In women's play, Evonne Goolagong of Australia reached the semifinals with a 4-6, 6-2, 7-5 victory over Betty Stove of the Netherlands.

Julie Heldman of New York beat England's Corinne Lorains, 6-3, 6-2, and Virginia Wade beat fellow Briton Winnie Shaw, 6-4, 6-4.

Chess Game Till Sunday, etrosian Ill

NOS AIRES, Oct. 21 ers).—Soviet chess aster Tigran Petrosian commended to rest by s here today and the game of his world ge round series against Fischer of the United was postponed from to- to Sunday.

r Petrosian complained nach pains yesterday, he amined by doctors, in- official match physi- Cecilio Skliar, who ad- him to rest.

osian trails by two 4 1/2 to 2 1/2, in their e series to decide who hallenge Boris Spassky, f the Soviet Union, for orld title next year.

Loughery's Clutch Shooting Paces 4th Straight for 76ers

PHILADELPHIA, Oct. 21 (AP).—Bill Cunningham and newly-acquired Kevin Loughery combined for 49 points and did the clutch scoring as the unbeaten Philadelphia 76ers gained their fourth victory by defeating the Seattle Supersonics, 100-93, last night.

After Seattle's Bob Rule had tied the game at 92-all with 2 minutes 56 seconds left, Loughery sank a long jumper to put the 76ers ahead to stay at 94-92.

Loughery got four more points and Cunningham two fouls as Seattle managed only a free throw by their player-coach, Lenny Wilkins, the rest of the way.

Cunningham had 29 points to top the winners, while Loughery, who came to Philadelphia in a trade Monday with the Baltimore Bullets for Archie Clark, finished with 20.

Bulls 125, Rockets 110

Chicago handed Houston its fourth consecutive defeat, 125-110, in the first professional basketball game every played in Waco, Texas.

The Bulls placed five players in double figures with Bob Love setting the pace with 31 points.

Warriors 115, Cavaliers 98

Cazzie Russell scored 29 points and Jeff Mullins got 27 to pace the Golden State Warriors to a 115-98 victory over Cleveland.

Lakers 126, Hawks 104

Wilt Chamberlain scored 13 of the last 16 of Los Angeles's points to lead the Lakers to a 126-104 victory over Atlanta.

Laker forward Jim McMillian led all scorers with 39 points. Chamberlain scored 18.

Philadelphia 100, Seattle 93 (Cunningham 29, Loughery 20; Kojis 18, Snyder 15).

Chicago 125, Houston 110 (Love 31, Sloan 27; Lantz 33, Hayes 22).

Stockton Trails Australian Golf By One Stroke

MELBOURNE, Oct. 21 (UPI).—Australians David Graham and Dennis Ingram each shot a four-under-par 68 today to share the lead after the first round of the Wills Masters golf championship.

American Dave Stockton shot a 69. At 70 were Sukree Onchum of Thailand, and Australians Bruce Crampton, Guy Welstenholm, Billy Dunk and Geoff Parslow.

Roberto de Vicenzo of Argentina finished at 71, while American Dave Hill finished at 72. Gene Littler, also from the United States, had a 74.

Sponsor Quits Tennis 'Cattle Market'

LONDON, Oct. 21 (AP).—One of Britain's leading commercial tennis sponsors is quitting the circuit and pulling out of what it calls "an international cattle market."

A health food firm (Bio-Strath), which sponsored 10 major tournaments in Britain this year, announced last night it will concentrate on extending its tennis clinics for young players.

M. A. Van Strath, a director of the firm, issued a statement saying that the sponsored tournaments had become increasingly expensive and "a cushion for mediocrity."

Van Strath said: "The organization of major tournaments is nothing short of an international cattle market for tennis players, and the trials and tribulations of securing leading players and their subsequent appearance, to say nothing of their performance, are a nightmare to any sponsor."

He added: "Until the international situation is resolved, we would like to see our sponsorship giving the maximum benefit to the maximum number of people, instead of to the select few."

Starting Jan. 1, the 32 World Championship tennis stars will be banned from all International Lawn Tennis Federation tournaments, some of which have been sponsored by Van Strath's firm.

"Over the past two years we have invested a large amount of money in tournaments," Van Strath said. "But due to the current international situation in tennis, we do not feel that further tournament sponsorship would be compatible with our plans."

Cup Play in Cleveland

CLEVELAND, Oct. 21 (AP).—The executive director of the United States Tennis Association said last night that the American zone finals of the 1972 Davis Cup will be held here in July.

Bob Malaga also stated that the Cleveland competition will be the only Davis Cup play held in the United States next year. He said the finals definitely will not be in this country.

Under a new format that goes into effect next year, the defending champion Americans will compete in every round instead of waiting until the challenge round finals.

The U.S. team will have to win the North American title to earn a spot in the Cleveland event. Opponents in North American play include Canada, Mexico, British West Indies and Venezuela.

D.C. International Put on Agenda Of New York Off-Track Betting

NEW YORK, Oct. 21 (NYT).—Over the objections of track officials, the Washington, D.C., International at Laurel Race Course was added to the special-event calendar of the Offtrack Betting Corporation yesterday.

The 1 1/2-mile test, one of thoroughbred horse racing's top attractions, will be run on Monday at the Maryland track.

Howard J. Samuels, President of OTB, announced that his agency would accept win and exacta wagers at all 36 offices and through the telephone betting center. Odds will be computed on the basis of OTB's parimutuel pool.

"This world famed race," Samuels said, "will be legally brought to New York for the first time and should help generate new interest in this 1 1/2-mile thoroughbred classic."

Laurel officials, however, were less than enthusiastic over the news.

"We object to it," a spokesman for the track said yesterday by phone. "We just don't like it. We think it's unfair."

The spokesman said the track did not plan "to make a legal battlefield" of OTB's entry, but felt a "logical, honest, reasonable compromise" should be instituted to avoid continued controversy.

The International represents OTB's fourth special event. The agency previously accepted wagering on the Kentucky Derby, Preakness and Belmont.

DRIVER HOSTESS for Rolls. Top appearance. Travel interesting. Send photo, SMITH, 14 Rue de l'Ancien Port, Geneva.

Observer

Soft? Warm? Shame!

By Russell Baker

WASHINGTON.—Every now and then you catch yourself thinking it might not be so bad being President of the United States, and then you pick up a paper and read about the cold, hard logic.

Cold, hard logic is what presidents are always being confronted with, if the newspapers can be believed. Just the other day one of the papers here was reporting President Nixon at grips with the cold, hard logic of something or other. It was enough to take the White House lust right out of a man.

Baker

If just once in a while a president could spend an evening at grips with some warm, soft logic, the job would not be so terribly unattractive. The voters probably wouldn't approve of it, however, and if word got out to the papers "President at grips with soft, warm logic," the polls would probably show a public revulsion against the poor devil.

The only way to save him would probably be for his press secretary to tell an outright, bald-faced or brazen lie, and this is another reason for not wanting to be president. You would have to call in your press secretary after some reporter had accused you of confronting the soft, warm logic of the international mess, or whatever, and order him to utter an outright, bald-faced or *brazen lie*.

The fellow would probably want to argue. "Why can't I ever tell a hairy-faced lie? Or an inleft lie? Or a shy, retiring lie?" You would have to treat this whiner with brutal candor, because brutal candor is the only kind of candor this country's newspaper readers will tolerate from its presidents. If you used merciful candor, the voting majority might become very testy indeed, particularly if you were also suspected of confronting logic that was soft and warm.

* * *

"Listen, mister press secretary whiner," you would have to say to him, "I'm going to tell you the truth, and you can have it in one of three forms—unvarnished, naked or plain."

The opportunities for quibbling now become infinite, which is terrible. Imagine being president, and having a mere press secretary quibble with you. "Can't you tell me the varnished truth, Mr. President?" How can you explain to this dolt that presidents simply do not go around telling varnished truths, or even shellacked truths, or painted truths with two coats and a primer.

Think of the unflinching realism you would have to carry about with you constantly, so that whenever you saw a famous newspaper columnist you would have some to pull out, thereby sending him back to his typewriter to tell the world that "the President's unflinching realism stands this country in good stead," and so on.

Well, unflinching realism may be meat and potatoes to famous columnists, but to women it is the dreary locker-room malarkey of John Wayne movies and Sunday-afternoon football, and the domestic unpleasantness it would create around the White House is easily imagined. "I'm sick and tired of your unflinching realism. Can't we occasionally have a little *unflinching romanticism around* here? Or at least a little flinching realism?"

* * *

It would be necessary to give her the bare or ugly facts. Here, fortunately, the President has an option, in that he is allowed two kinds of facts to choose from when he has to give some to the uninformed. "I am going to give you the bare facts or the ugly facts, Martha," he can say to his wife, Martha, "but you can have your choice. How do you want them? Bare or ugly?"

At a guess the First Lady would prefer her facts expensively gowned and pretty.

"Pretty facts? Do you want to get me impeached?"

It must be terrible—the cold, hard logice, the unvarnished truth. Always forbidden to tell an inleft lie, to let your realism flinch, to give people the pretty facts. Forbidden by ancient literary custom embedded in the national psyche to content yourself with a timid, old initiative. Everything cold, hard, outright, bald-faced, brazen, brutal, unvarnished, naked, plain, unflinching, bare, ugly.

It would be more fun running a hardware store.

Tributes to Picasso

PARIS, Oct. 21 (AP).—President Georges Pompidou today opened a mini-exhibition of eight paintings by Pablo Picasso in the Louvre—the first time that a living artist has been honored with a show in the Louvre's Grande Galerie.

To accent the national homage to Picasso, who will celebrate his 90th birthday Monday, admission to the Louvre and other museums with special Picasso shows will be free until the end of the month.

"Seated Woman," a cubist painting from 1909, and "The Rocking Chair," a 1947 Picasso, hang in the area where the Mona Lisa was once displayed.

At the opening ceremony this morning, President Pompidou called Picasso "a volcano." He said that the intention was to pay "homage to the artist, certainly, but also a little to the man who chose France to live and work."

Picasso was at his home at Mougins, in southern France. If he follows the pattern of previous birthdays, he will seclude himself in his home on Monday, giving no sign of recognition to the tributes from all over the world.

The birthday celebrations were given a sendoff last night with a showing of three movies about Picasso at the Louvre. On Sunday, the village of Vallauris—the place where Picasso started working in ceramics—will pay its special respects with public eulogies, reading of poems and Spanish guitarists serenading in the streets.

The program from the Vallauris celebration will be moved to the Palais des Sports in Paris Monday, where the three movies about Picasso will again be shown.

The French Communist party, which claims Picasso as one of its members, has been active in organizing the Picasso tributes. Vallauris has long had a Communist administration, and the party is *organizing the Monday program in Paris*.

The Soviet Union is sending two dancers from the Bolshoi troupe to perform on the program in the Palais des Sports. In addition, the Soviet Union is lending 25 Picasso paintings from the collections in Leningrad and Moscow for an exhibition opening Oct. 28 at the Museum of Modern Art in Paris.

The Trouble With Retirement—Society

By Walter Sullivan

NEW YORK (NYT).—Presidents and board chairmen of about 60 American corporations, plus some university presidents and others, met here this week to contemplate one of the most agonizing events in the life of any career person—retirement.

There was wide agreement that a life of intensive business competition could leave a man ill-prepared for the sudden relief of such pressure. But it was also suggested that the trouble lay deeper within the ethic of modern society.

Dr. Harvey Cox, professor of divinity at Harvard University, traced the problem to the Reformation and other events of the 16th century that largely terminated the contemplative culture of the West. This culture was replaced, he said, by a "manipulative" approach to the world.

"We have conquered the world and are now setting about to conquer the moon," Dr. Cox said. But, having achieved this, "we don't know what to do with it," he continued, adding, "We have begun to find out that this is not what life is all about."

Relationship

There is a close relationship between contemplation and celebration, he went on, citing the almost forgotten tradition of the Sabbath as a day of abstinence from physical activity, when a person "simply opens himself to *the beauty of the universe*." Without such celebration, he asserted, "we live in what many consider a joyless society."

The problem of coping with retirement is not to "find things for people to do," he said, but to create a culture in which contemplation and "celebration" are intrinsic.

The educators tended to agree that a major difficulty lay with schooling. Dr. Verne S. Atwater, until last month president of the Westinghouse Learning Corporation, suggested that the education and preparation of people for a meaningful life after retirement should run throughout their period of employment.

Dr. William J. McGill, president of Columbia University, suggested a radical change in career management in which a person would move back and forth between the academic and business worlds. In this way, the university would remain closer to the business world and the businessman's education would not end abruptly in early life.

The time is ripe, he said, adding, "We can see the first signs of a breakdown of traditional methods of education built on a rising tide of technological growth." In the context of the crisis looming over our entire society, Dr. McGill said, a reordering of career paths has at least become a possibility.

A number of speakers expressed dismay at what they termed the "geographical isolation" of the elderly in retirement villages. Dr. James A. Perkins, former president of Cornell University and now head of the International Council for Educational Development, noted that the elderly once played a key role in society.

Since only a few lived to great age, he said, they served as patriarchs—wise men to whom younger generations turned for counsel. Now there is growing isolation between generations and the elderly tend to be shunted off to retirement villages.

A preferable solution, some speakers said, is the current development of special housing for the elderly within their home communities, where they can still enjoy interaction with the young.

PEOPLE: *Niarchos Marri[es] Ex-Sister-in-La[w]*

Greek shipping magnate Stavros Niarchos, 62, yesterday married his former sister-in-law, Tina Livanos, recently divorced from the Marquess of Blandford. The wedding took place in the mayor's office of Paris's 8th arrondissement with the bride's mother as the only witness, Agence France-Presse reported. On Oct. 18 the IHT People column reported that she obtained her divorce from the marquess on May 26 in a reportedly record short time for a French process and that she had asked for a waiver on the 300-day "widow's delay" required by French law before remarriage in France. Niarchos was the widower of Eugenia, Tina's sister, who died of an overdose of barbiturates last year while holidaying on her husband's private island south of Athens.

Tina, whose formal name is Athina, and Eugenie were daughters of the late Greek shipowner Stavros Livanos. Tina's first marriage, to the Greek shipowner Aristotle Onassis who has since been remarried to the former Jacqueline Kennedy, ended in divorce. She had two children by her marriage to Onassis, whose fleet of oil tankers, one of the world's largest, rivals Niarchos's own fleet. Niarchos was also married briefly to Charlotte Ford, daughter of Henry Ford 2d, the automobile manufacturer.

Billy Graham, the American Protestant evangelist, is considering staging a crusade in Rome—at the heart of the Roman Catholic world—it was announced yesterday in Rome. Dr. Graham will arrive there on Monday to discuss the possibility of staging the crusade, the announcement added. It will be his first public visit to Rome, although he has previously visited the city as a tourist. Mr. Graham will be going at the invitation of Italian evangelical groups and churches, who want him to hold a *series of mass gatherings*—probably at Rome's 15,000 capacity Palazzo Dello Sport. The invitation was originally announced last April. Yesterday's announcement said the Bible-*thumping evangelist would hold* a press conference on Monday, but no other public meetings. The invitation has been made on the strict condition that Dr. Graham "does not have contacts *with the Pope or other represen*tatives of the Catholic hierarchy before, during or after his addresses." If the crusade takes place it is expected [...] in May, 1972.
